KUDOS

I am happy to welcome new and returning students to IUP. I am sure that "The Eye" will serve as a constant source of information about the campus and community.

Robert C. Wilburn
President

The handbook is designed to supplement, incorporate and update students as to "what is" and "where it is." It would serve as a source of information to all students at Indiana University of Pennsylvania. To remain a viable institution, new ideas, new directions and revised goals must be continually set.

This publication is an attempt to keep abreast of these changes for the information and education of all students.

James W. Laughlin
Dean of Student Services

A college education means more than merely earning a degree. Since most of your time will be spent outside the classroom, you should consider one or more of the many varied university activities to give you the chance to broaden and improve yourself in a manner that can't be obtained just by going to class.

Mark "Drew" Phenicie

A NEW CENTURY, A NEW SPIRIT

Indiana University of Pennsylvania will embark on its one hundred and second year of educational life in the 1976-1977 scholastic year. During this year, Indiana students will see the beginning of a new library as the old makes way for the new. An election year will be upon us, the bicentennial year will be finally put to rest and college students will try to define themselves in academic and other endeavors.

The staff of *The Eye* hopes that you will find the handbook a useful resource piece and that the sectional reorganization proves more logical and efficient. We believe that errors and resulting misinformation are few and can only request that the readers listen to Pope's admonishment: "To err is human, to forgive is divine."

On Wasting Time

JAMES A. MICHENER

The "lost" years often turn out to have been the most productive of all

We all worry about wasting time, about the years sliding past, about what we intend to do with our lives. We shouldn't. For there is a divine irrelevance in the universe that defies calculation. Many men and women win through to a sense of greatness in their lives only by first stumbling and fumbling their way into patterns that gratify them and allow them to utilize their endowments to the maximum.

If Swarthmore College in 1925 had employed even a halfway decent guidance counselor, I would have spent my life as an assistant professor of education in some Midwestern university. Because when I reported to college it must have been apparent to everyone that I was destined for some kind of academic career. Nevertheless, I was allowed to take Spanish, which leads to nothing, instead of French or German, which as everyone knows are important languages studied by serious students who wish to gain a Ph.D.

I cannot tell you how often I was penalized for having taken a frivolous language like Spanish insteead of a decent, self-respecting tongue like French. In fact, it led to the sacrifice of my academic career.

Still, I continued to putter around with Spanish, eventually finding a deep affinity for it. In the end, I was able to write a book about Spain which will probably live longer than anything else I've done. In other words, I blindly backed into a minor masterpiece. There are thousands of people competent to write about France, and if I had taken that language in college I would have been prepared to add no new ideas to general knowledge. It was Spanish that opened up for me a whole new universe of concepts and ideas.

Actually, I wrote nothing at all until I was 40. This tardy beginning, one might say delinquency, stemmed from the fact that I had spent a good deal of my early time knocking around this country and Europe, trying to find out what I believed in, what values were large enough to enlist my sympathies during what I sensed would be a long and confused life. Had I committed myself at age 18, as I was encouraged to do, I would not even have known the parameters of the problem, and any choice I might have made then would have had to be wrong.

It took me 40 years to find out the facts.

As a consequence, I have never been able to feel anxiety about young people who are fumbling their way toward the enlightenment that will keep them going. I doubt that a young man — unless he wants to be a doctor or a research chemist, in which case a substantial body of specific knowledge must be mastered within a prescribed time — is really capable of wasting time, *regardless* of what he does. I believe you have until age 35 to decide finally on what you are going to do, and that any exploration you pursue in the process will in the end turn out to have been creative.

Indeed, it may well be that the years observers describe as "wasted" will prove to have been the most productive of those insights which will keep you going. The trip to Egypt. The two years spent working as a runner for a bank. The spell you spent on the newspaper in Idaho. Your apprenticeship at a trade. These are the ways in which a young man ought to spend his life . . . the ways of "waste" that lead to true knowledge.

Two more comments. First, I have recently decided that the constructive work of the world is done by an appallingly small percentage of the general population. The rest simply don't give a damn . . . or they grow tired . . . or they failed to acquire when young the ideas that would vitalize them for the long decades.

I am not saying that such people don't matter. They are among the most precious items on earth. But they cannot be depended upon either to generate necessary new ideas or to put them into operation if someone else generates them. Therefore, those men and women who do have the energy to form new constructs and new ways to implement them must do the work of many. I believe it to be an honorable aspiration to want to be among those creators.

Second, I was about 40 when I retired from the rat race, having satisfied myself that I could handle it if I had to. I saw then that a man could count his life a success if he survived — merely survived — to age 70 without having ended up in jail (because he couldn't adjust to the minimum laws that society requires) or having landed in the booby hatch (because he could not bring his personality into harmony with the personalities of others).

I believe this now without question: income, position, the opinion of one's friends, the judgment of one's peers and all the other traditional criteria by which human beings are generally judged are for the birds. The only question is, "Can you hang on through the crap they throw at you and not lose your freedom or your good sense?"

I am now 67¾, and it looks as if I've made it. Whatever happens now is on the house . . . and of no concern to me.

PURPOSE

Indiana University of Pennsylvania has as its purpose the attempt to fulfill that primary purpose of education as stated by Alfred North Whitehead: "It must stimulate and guide student self-development." This is in order for the student to learn how to make a living and how to live.

The intellectual climate helps develop the student's mental discipline and his contacts help to stimulate his imagination, extend his tolerance, and enable him to make critical and independent judgements and mature decisions.

The motivated student is challenged by being offered a broad perspective in many curricula and yet given the opportunity to study in depth his particular interest.

Believing that self-education is also a most important aspect of any education, the faculty tries to give the student both the ability and the desire to teach himself.

Branch Campuses

CONTENTS

I. DESCRIPTION

II. CO-CURRICULAR ACTIVITIES

BRANCH CAMPUSES

Indiana University of Pennsylvania operates two branch campuses.

The first branch campus was established in September, 1962, in Punxsutawney. The following year the Armstrong County Campus in Kittanning was opened. Approximately 300 students are enrolled at the Punxsutawney Campus and 550 students at Armstrong County Campus.

Both campuses have University faculty members who teach full time at the branch campuses. To meet additional curriculum needs, other faculty from the main campus travel to the branch campuses.

The branches provide one or two full years of college work which, if satisfactory, is transferable to the main campus of Indiana University of Pennsylvania or to other accredited colleges.

CO-CURRICULAR ACTIVITIES

ARMSTRONG COUNTY CAMPUS

A large part of the co-curricular activities at the Armstrong County Campus takes place in the Student Union which adjoins the two dormitories and the Academic building. The Union is a two story building, the first floor of which is equipped for such activities as pool, ping pong, and dancing. The second floor is furnished as a lounge with television and a piano. Movies are scheduled bi-weekly and dances are scheduled on alternate Fridays.

Each Wednesday from 7:00 to 10:00 P.M. the students may participate at the local YMCA in a Gym-Swim sponsored by the branch campus and supervised by college faculty. The Gym-Swim physical activity includes swimming, gymnastics, volleyball, and basketball.

Each year two semi-formal dances for students and faculty are held, one during the Christmas season and the other in the Spring. A fall outing at the University Lodge on the outskirts of Indiana is supervised by faculty members. All three functions are organized and sponsored by student government.

The students of the Armstrong County Campus are encouraged to attend the University Artists Series on the Indiana campus. Bus transportation is provided for those students who wish to attend these monthly activities.

Many of the students are active in Judicial Board, Student PSEA, Big Brother and Big Sister, Newman Club, and other branch campus activities.

The churches, social and civic organizations of the area invite and encourage the students to take an active part in their projects and activities.

PUNXSUTAWNEY CAMPUS

The newly completed Student Union building is the scene of a major portion of co-curricular activities at the Punxsutawney Campus. The new Union provides facilities for dances, pool, ping-pong, movies and will also have lounge areas equipped with color television and piano. This building is expected to reactivate the drama club since it provides more suitable facilities for plays and musicals.

Outstanding functions of the school year are the Christmas and Spring semi-formal dinner dances and an informal party at the University Lodge held in conjunction with the Kittanning Campus.

A van has been purchased for the campus and this will facilitate the transporting of small groups of students for such events as intramural athletic activities to both Main Campus and the Kittanning Campus. Bus transportation is provided for larger groups of students wishing to attend artist series performances, athletic events and other Main Campus activities.

Various clubs are active on the Punxsutawney Campus, especially the Circle K which is the College division of Kiwanis International. Circle K participates in many worthwhile community service projects. The elected Student Government supervises and arranges for all co-curricular activities on the campus.

The churches of the area invite and encourage students to take an active part in their functions and the Coalition for Christian Outreach sponsors a person to spend time with the students giving spiritual help and guidance to those desiring it.

A student desiring entrance into either of the Branch Campuses can secure further information by writing directly to the following addresses:

GENERAL ACADEMIC POLICIES

CLASS ATTENDANCE

Regular attendance is optional although freshmen are encouraged to attend all classes. All students are required, however, to attend classes the first full week of the semester in order to stabilize enrollments and class rosters. Class attendance and class participation beyond mere physical presence are essential for maximum educational advantage and are strongly encouraged. Responsibility for all course material rests entirely with the student, whether or not he attends each class. Under no circumstances shall class attendance, per se, be used as a basis for awarding or altering a grade in a course; this applies to freshman through senior class levels. Course grade will be based on such factors as class preparation, class participation, skill development, effectiveness of oral presentations and/or written reports, quiz grades, and test and final examination scores. It is the prerogative of the instructor to administer unannounced quizzes as part of the student evaluation process, and to pass judgment on the merits of all cases involving late class submissions and class requirements missed by the students.

The advanced course in the ROTC program is excluded from the option of class attendance.

ADVISORY SYSTEM

The objective of the advisory system is to provide an opportunity for each student to discuss problems relative to the scholastic work with an instructor in his major field. Each student is assigned a faculty adviser by the chairman of his major department and the V. P. for Student Affairs office. A student may consult his adviser throughout his program at the University at times posted by his adviser each semester.

GRADING SYSTEM AND QUALITY POINTS

Detailed information on the grading system and quality points may be found in the '76-'78 Undergraduate Catalog.

ACADEMIC AND DISCIPLINARY DISMISSAL

Academic dismissal shall be by the Dean of the School in which the student is enrolled with notification to the Registrar, Vice President for Student Affairs, the Business Manager, the Student's Adviser, and the Veterans' Counselor, if the student is a veteran.

Suspensions or dismissals for disciplinary reasons shall be recommended to the President of the University by the Vice President for Academic Affairs upon THE RECOMMENDATION OF THE University Judicial Board, composed of the Vice President for Student Affairs, five faculty members, Dean of Student Life or his proxy, Dean of Student Development or her proxy, a faculty representative from Committee F, a representative from the University Senate or his proxy, and appointee of the Vice-President for Academic Affairs from the Academic Deans or his proxy, five student members to be selected as follows: four regular (two men and two women) and two alternates to be either elected or appointed from the general student body through the SGA and one student representative or his proxy selected by Committee F.

**Detailed information on Academic Policies may be found in the '76-'78 Undergraduate Catalog.*

WITHDRAWALS—PROCEDURE

General Procedure: Any undergraduate student withdrawing from the University during a semester or a summer session should secure an official withdrawal blank from the Office of the V.P. for Student Affairs. The student will then clear with the appropriate offices listed on the form, securing their signatures as evidence of clearance. The Withdrawal Form will then be returned to the V.P. for Student Affairs. Official notification of withdrawal from classes will be sent to each instructor by the Dean of the undergraduate school involved. No person shall be considered withdrawn from the University until such notice is received.

MARKING POLICY

A. Students officially withdrawing from the University during the first six weeks of any semester should be assigned a "W" grade for all courses being taken at the time of withdrawal.

B. Students withdrawing from the University—for any reason—from the seventh week up to the last two weeks of regularly scheduled classes should be given a WP or a WF in each course being taken; the evaluations to be made by each of the student's instructors. Computer facilities will not permit the recording of WP's and WF's. WP's and WF's will be recorded but will not be used in quality point average computation.

C. Students withdrawing from the University—for any reason—within the last two weeks of regularly scheduled classes should be given either a WP or an F in each course as evaluated by the instructor. The grade of F obtained in this manner would be used in the computation of a quality point average as is an F earned by a student who does not withdraw from the University.

D. Students withdrawing from the University during any but the last week of a summer session should be entitled to the considerations given in Step B.

E. Students withdrawing from the University during the last week of any summer session should be entitled to the consideration given in Step C. (for Refund Policy, see page 30).

ACADEMIC AFFAIRS

The office of Vice President for Academic Affairs coordinates all phases of academic affairs. However, students should normally work in academic areas with the Dean of their respective school.

ACADEMIC GRIEVANCES

If a student feels that he has been treated unfairly by any instructor (this will refer principally to grading policy, but very occasionally may include genuine disagreement in class participation), he must try to resolve the problem first with the Chairman of the Department in question. If the student is not satisfied with the solution offered by the Department Chairman, he should confer with the Dean of the School in which he is enrolled.

ARENA SCHEDULING

A student's college career at Indiana begins with his participation in arena scheduling. The beginning of the fall and spring semester has been officially set aside for this purpose.

A student is assigned a time to report to the scheduling center to begin the process. The University suggests that the student report to the Arena to secure necessary cards and the master schedule of courses, times, and faculty at least one half hour before his "report time." The wise student picks his cards up at least one day prior to his scheduling time, whenever possible. This allows plenty of time to plan his schedule and alternatives.

Selecting one's courses is the total responsibility of the student. The Orientation—Interview accomplishes this for freshmen. Help may be secured from the Academic Advisors during scheduling.

The student's time for registration is posted on the door outside the scheduling site. A group of students having the same "report time" is admitted to the site and their reporting time is verified. Overhead listings placed strategically around the room and closed circuit television sets around campus indicate the call numbers of the closed sections. A student upon finding one or more of his classes closed must rearrange his schedule to accommodate those still open.

Call numbers, once arranged, are keyed into a terminal and the schedule is verified by the computer. If a class has not closed during this period, the schedule is approved. When classes have closed, the student must return to the planning area to make adjustments to his/her request.

CHANGING CURRICULUM

To obtain a change in curriculum, the student obtains an application form in the office of the Dean of the School into which he plans to transfer. Changes are processed as they occur.

CUMULATIVE AVERAGE

Example:

Course	Semester Hours	Grades	Quality Points
English 102	3	D	3
Bio. 101 (Repeat)	4	C	8
Spanish II	3	B	9
Intro to Art	3	B	9
Phys. Ed.	1	B	3
	14		32

Quality Point Average

Quality Points / Semester Hours $= \frac{32}{14} = 2.28$

Your Quality Point Averages for both semesters equals your Cumulative Average.

University rulings require a cumulative average for Freshmen of 1.8 to remain with the University in good standing. Freshmen must complete their first year with an overall 1.8 average including consideration of grades earned, if necessary in the Pre and Main sessions of Summer School. For additional information concerning grade requirements see pages 11 and 12.

DROP-ADD PERIOD

The University eliminated the Drop-Add period when the scheduling procedure changed to the present Arena System. However, special exceptions may be granted when administrative error has caused a misscheduling or when exceedingly special circumstances prevail. All such administrative drop-adds will require the approval of the department chairman to whom inquiries should be addressed.

EXAMINATIONS

Examinations are the major means of evaluation of a student's comprehension and work in a course. The number and type of exams is determined individually by each professor, but a final examination during a specified period at the end of each semester is required by University policy.

The types of tests vary from essay to oral exams, but many are of the objective type—multiple choice, matching, true and false, etc. Of these many are scored by the computer, so students should always be alert—armed with No. 2 pencils and a social security number.

The number of tests are as varied as the types. Most profs like to give three or four throughout the semester—and invariably all professors decide to have them the same week. Others prefer many small quizzes to fewer comprehensive exams. Sometimes a professor will even by-pass the no-cut policy and require attendance at his classes by threatening pop-quizzes—a procrastinating student's nightmare.

EXEMPTION, ADVANCED PLACEMENT, ACCELERATION

New entrants to IUP are encouraged to explore available exemption, advanced placement, and acceleration opportunities. Their purpose is to obtain recognition by the University of past achievement. A qualified underclassman may select more advanced courses in his field, select free electives outside his field, or reduce the number of required courses for the degree.

Every student at IUP is required to take a set number of general education courses. Some may be in his major field, but many are not. Their purpose is to broaden the educational experience. Through exemption one may omit many general education courses and begin study on a higher and perhaps more interesting and challenging level.

Exemption involves examination of previous levels of achievement. Exams cover the normal course requirements. The examinee is expected to equal or exceed the level expected of students enrolled in the course.

It is recommended that a new entrant examine his background in relation to others who have had experienced success through the exemption policy. An overwhelming majority have had a strong overall background including:

1. Placement in the upper quarter of their high school graduating class;

2. Combined scholastic aptitude mathematics and verbal scores of at least 1050;

3. Maintaining a "B" average or better in the corresponding academic area while in high school;

4. Confidence in their own potential to enter an advanced course without the benefit of a University introductory course.

In addition to the general requirements, a list of recommendations, with respect to specific background for possible success on each examination by subject, is available by each sponsoring department. Many of the departments offering exemption provide for examination throughout the year. Most, however, require that the examinee contact his department prior to registration for a schedule of time and campus locations for exams.

Credit and/or exemption are the prerogatives of the department in which the course exemption is earned. Students who pass the exemption exams are credited with having taken the course, but will receive no quality points or grade. It will not affect a student's University average nor are failures recorded.

A similar procedure exists for those who received credit after having successfully completed an Advanced Placement Program in high school. The Advanced Placement (AP) Program is recognized only if sponsored in conjunction with the National Program under College Board sponsorship.

The results of Advanced Placement Examinations are channeled upon arrival at the campus through the office of the Academic Vice-President who serves as the University liaison with the College Board. No score below 3 will be judged for credit. The new entrant is responsible for requesting materials concerning his exam to be forwarded from the College Board. Should a course or related course be scheduled by a freshman for his entering semester, he should notify his department chairman on or before the day of registration.

The year 1972-73 introduced consideration of the College Level Examination Program (CLEP) at IUP. Should an entrant have had exposure to this program, he should contact the Office of the School Dean in which he will be enrolled.

GRADUATION DATES

Although graduation occurs 3 times a year—in December, May and August, commencement exercises are held only in May. Students meeting the requirements for graduation are alerted through the Daily Bulletins, department deans, and the Penn. Students must register for graduation so that a check of records, etc., validate his qualifications for graduation.

JUNIOR STANDING

For advice see the Dean of your particular School. This classification is necessary in order to student teach.

OPPORTUNITIES FOR FOREIGN STUDY

The University supports several foreign study programs for which credit is given toward a degree. See the '76-'78 Undergraduate Catalog, for information.

PASS-FAIL POLICY

University regulations permit a student to take courses on a pass-fail basis for a total of 15 semester hours during his University career except for the freshman year. The purpose of the pass-fail option is to allow a student to take an elective course in a field of his personal interest where he may be competing with major students in that department. When scheduled, such a course shall be included in the student's normal course load for the semester. A student shall be given academic credit **without quality points** for a course taken pass-fail if he receives a passing mark in the course (A, B, C, or D). If a student successfully completes a given number of hours within the overall 15 semester hour pass-fail limitation, these hours shall be deducted from his graduation requirement (124 hours minimum) for the purpose of calculating his required graduation quality point average. If a student fails a course taken on a pass-fail basis, it will be recorded the same as an F grade received in any other way.

The student is limited to one pass-fail course in any given semester during his **sophomore, junior** and **senior** years (summer sessions, consisting of Pre-, Main, and Post- collectively or in any combination shall be considered a unit similar to a fall or spring semester for pass-fail purposes. A student therefore is permitted to take only one course during the summer on a pass-fail basis).

Courses in the student's General Education program and his major and minor fields are excluded from this prerogative unless he has previously fulfilled all of these requirements.

The student should declare his intent to choose pass-fail in a specific course no later than the end of the semester's discrete course withdrawal period (6 weeks). Instructors will not be notified of the identity of pass-fail students and their courses; identification will be handled by the Scheduling and Computer Centers through appropriate coded control. Having declared pass-fail status by the end of the discrete course withdrawal period, the student may not subsequently request a change in this option. Such courses taken Pass/-Fail are not counted toward the minimum of 12 credit hour load per semester needed to qualify for the Dean's List.

REGISTRAR

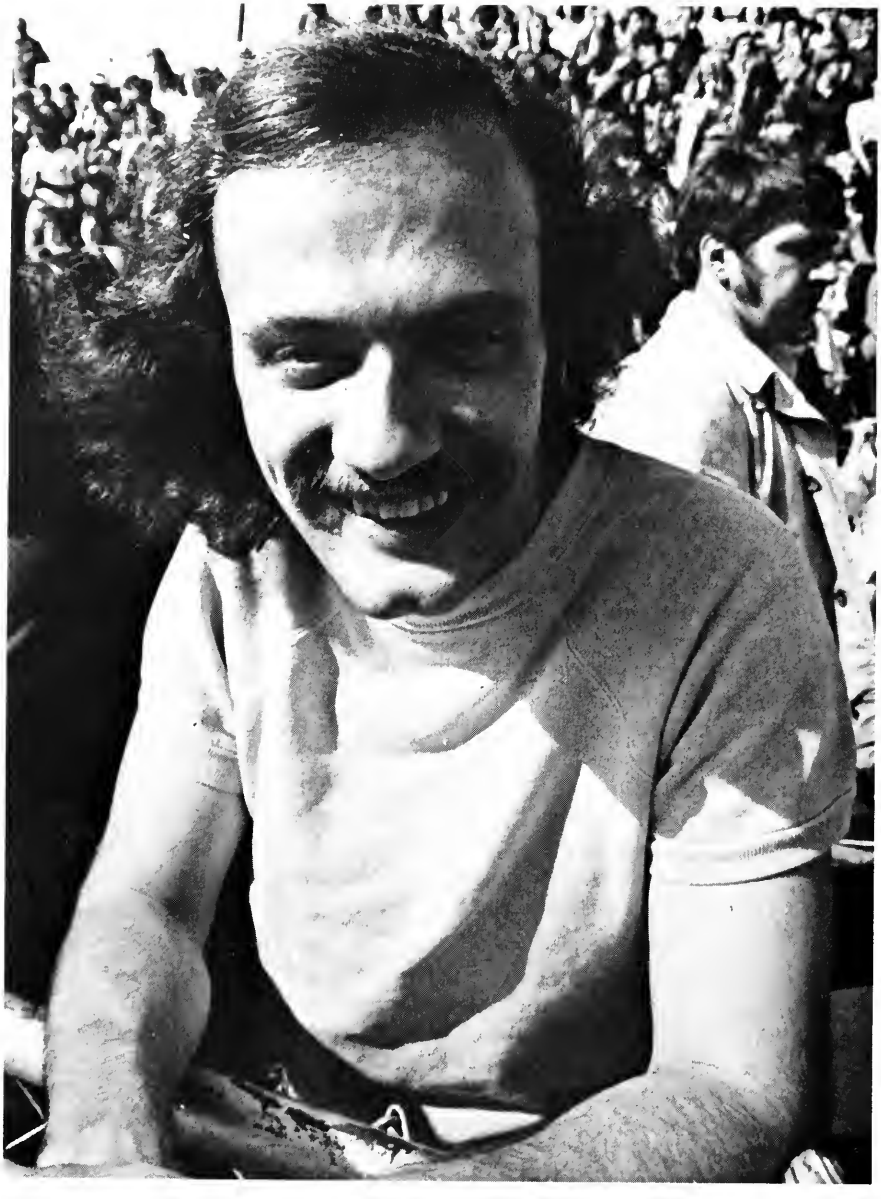
Services such as obtaining transcripts, adjusting addresses, checking grades and schedules are available through this office located in Clark Hall, Room 114, Ext. 2217 or in the Office of the Assistant Registrar for Scheduling, John Sutton Hall Basement, Ext. 2652, 2653.

Students may obtain official transcripts by applying in writing to:

Indiana University of Pa.
Transcript Office, Clark Hall
Indiana, Pa. 15701

Phone 412-357-2216

There is no charge for the first transcript. A charge of one dollar is made for all others. No requests will be accepted by phone.



SUMMER SESSIONS

The Summer School program at Indiana is divided into three sessions: a Pre-session of three weeks, a Main session of six weeks, and a Post-session of three weeks. Students may earn three to four credits in the Pre- and Post-sessions, and six in the Main session. Any one or all of the sessions may be attended, making it possible for a student to earn three to twelve credits in a summer.

The summer school program at IUP is designed to meet the needs of many students. Included in this are Summer—January Freshmen — students accepted into the University but required to attend the summer sessions, sit out the Fall term and return in January at the departure of a graduating class. Courses, workshops, seminars, and study tours are offered in various schools of the University and in numerous fields of study.

Summer sessions are also recommended for students who are deficient in quality points for an overall C average in their completed work at the University, as a C average or better is necessary to maintain continuance in the University.

Those who plan to attend summer school will be asked to fill out pre-registration cards in the Spring. Students who do this are given first preference in courses they wish to take during the summer months. However, it is possible to register for classes as late as the day before a session begins, though it may be difficult to secure a course opening.

Write to the Registrar after March 1 for the special brochure indicating courses and activities of the Summer Session.

TEACHER CERTIFICATION REQUIREMENTS

For assistance, call the Dean of the School of Education.

TRANSFER OF CREDITS

Those students who plan to enroll in another institution should make arrangements with the Registrar to see that their records are forwarded. Transfer of credit from other institutions are under the discretion of the Dean of the School which the student wishes to enter.

WITHDRAWALS—COURSE

During the fall and spring semesters, students are permitted to withdraw from a course with a grade of "W" within the first six weeks of the semester. Faculty are required to inform students of their standing in class prior to the termination of this six-week period.

Discrete course withdrawals from summer session classes are subject to the regulations prescribed by the Director of Summer Sessions yearly.

Following the close of the prescribed six-week withdrawal period a student may withdraw from a course only with the approval of his adviser, department chairman, and school dean (in that order) for such reasons as illness, accident, or extreme personal problems. A withdrawal under these circumstances may occur no later than one week before the beginning of final examinations and shall not be authorized for such purposes as escaping the receipt of poor grades. If a course withdrawal is approved, the student will receive a grade of "W" for the course.

In processing all discrete course withdrawals, the student must complete a course withdrawal form available in department offices. The form must be signed by both the student and the instructor. Copies are sent to the student's adviser, chairman, and his school dean. The school dean is obligated to notify the Registrar so that posting to the student's academic record can follow.

If a student fails to complete the requirements of a course without processing a withdrawal and if the instructor does not receive a notice of withdrawal from the University, he will assign an "F" for the course.

MILITARY SCIENCE

The Military Science Department (ROTC) offers courses which prepare students for positions of leadership in both the Military Service and civilian careers. Students are given a chance to put theoretical ideas into practice in a variety of leadership positions. Stress is placed on learning by doing. An added benefit is that the student can see how his or her academic specialty is used in the Military Service.

Enrollment in the Freshman and/or Sophomore level military science courses in no way commits the student to further military science courses or to any military service.

MS 101 and MS 102 (Freshman level military science) satisfies the University General Education requirement for 4 semester hours of either Health/PE or ROTC. This requirement is satisfied in two semesters of Military Science or 3 semesters of Health/PE.

Those students that are qualified and elect to continue in ROTC through their junior and senior years will receive a non-taxable allowance of $100 per school month (current pay scale). Additionally, all ROTC enrolled students are eligible to compete for 3, 2, or 1 year scholarships that cover all tuition, fees, books, and $100 per month allowance. A commission as a Second Lieutenant in the Reserve (or Regular Army for highly qualified students) is received upon graduation. Students should contact the Military Science Department in Pierce Hall for information regarding Scholarships.

Military Science Courses are also offered at the branch campuses at Punxsutawney and Kittanning.

However, if payment cannot be made in entirety, at least half of the total bill must be paid by mid-semester. An exception to this is the summer session program, for which all fees must be paid on the day of registration.

Checks or money orders, in the exact amount of the account, should be made payable to the account designated on the bill. Bookstore purchases are on a cash basis.

Students will not be permitted to enroll for any semester until all bills previously incurred have been paid, nor will credit be certified to other institutions or to the Department of Education until all overdue accounts have been paid.

ACADEMIC VIOLATIONS

1. Minor Violations.

a. Cheating by those who give aid as well as receive aid in course and laboratory except in a final examination.

Sanction: "F" in the course.

b. Evasion of University academic policies and procedures.

Sanction: "W" in the course.

2. Major Violations.

Those violations which may warrant action beyond receiving an "F" in the course as:

a. Cheating on a final course or laboratory examination.

b. A second cheating violation.

c. Possessing an examination without the teacher's authority or prior knowledge.

d. Plagiarizing in any way.

e. Defacing library books or educational instruments or materials.

f. Purposeful evasion of University policies and procedures.

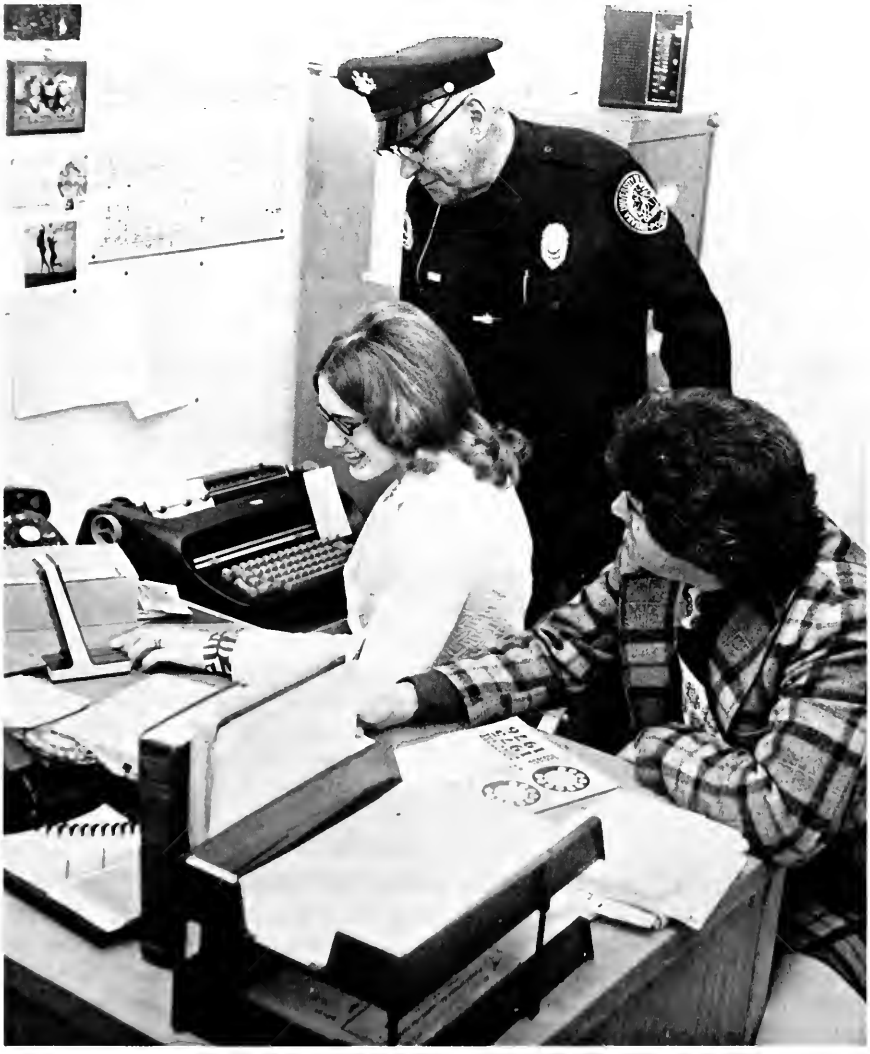
Sanction: An "F" in the course, suspension, or expulsion.

3. Minor Violations Procedure.

A teacher may fail any student for cheating in his course. [The teacher should inform the student and file a report of the violation with the Academic Discipline Subcommittee of the Senate Academic Procedures Committee, and the Vice President for Student Affairs, making the violation a matter of record in the Subcommittee's files.] The student may request a hearing (an opportunity to be heard) wherein the student and the teacher involved are heard by the chairman of the teacher's department. The heaviest sanction which can be imposed by the chairman is to uphold the "F" grade. The student may appeal the chairman's ruling to Academic Discipline Subcommittee.

The appeal board may accept the report and decision of the hearing board, reverse the hearing board's decision and return the case to that board for further hearings in keeping with suggestions that the appeal board may make, or reverse the hearing board's decision and dismiss the case. They may also accept the decision of the hearing board, but reduce the sanction imposed. They may not increase the sanction. Returning the case to the hearing board is not double jeopardy since the first hearing is still not complete.

If the appeal board accepts the report of the hearing board (whether it lowers the sanction or not), the matter is deemed final; except that either party may petition the original hearing board to reopen the matter upon the discovery of new evidence. The hearing board will judge the sufficiency of the new evidence, and no appeal can be taken from their decision.



4. Major Violations Procedure.

A major violation is handled similar to a minor violation. The instructor should inform the student and file a report of the violation with the Academic Discipline Subcommittee of the Senate Academic Procedures Committee and the Vice President for Student Affairs making the violation a matter of record in the Subcommittee's files. It then proceeds to a hearing by the Academic Discipline Subcommittee of the Senate Academic Procedures Committee whose composition shall be that of the Academic Procedures Committee with officially designated observers given full voting rights and excluding the Academic Vice President and the Dean of the School in which the academic violation occurred. The Academic Discipline Subcommittee shall be chaired by a student elected by the membership. The hearing will follow the standards of procedure where the accused should:

a. Receive ten (10) days written notice of the charges against him, and the sanctions which may be applied if the charges are proven;

b. Receive written notice of the date, time and place of the hearing (this should accompany the charges);

c. Be advised of the names of the witnesses who will appear against him and the substance of their testimony;

d. Receive a fair hearing before a duly constituted impartial tribunal (usually composed of a cross section of prime interest groups);

e. Have the right to present a defense and witnesses in his own behalf and the right to cross examine witnesses against him (the prosecutor naturally has the right to cross examine defense witnesses); and

f. Have access to a transcript of the proceedings and the findings of the board.

UNIVERSITY REFUND POLICY

The University must engage its faculty, assign Residence Hall space and arrange for meal contracts in advance of each term in accordance with the number of students who expressed their intent to be enrolled. When students withdraw from the University, they create vacancies which cannot be filled and financial commitments for salaries and services by the University must be honored. The refund policy at Indiana University of Pennsylvania applies to all students enrolled in credit producing programs at the University either full-time or part-time and becomes effective September 1, 1976.

WITHDRAWALS

I. WITHDRAWALS FROM THE UNIVERSITY

A. Undergraduate students withdrawing from the University must process such withdrawal through the Student Affairs Office, Pratt Hall. Graduate students must process through the Graduate School Office, Stright Hall. The official withdrawal date will be established by the Student Affairs Office (undergraduate) and the Graduate School Office (graduate).

B. Students totally withdrawing from courses, Residence Halls and/or meal contracts upon receiving approval from the applicable office (Student Affairs or Graduate School) will forfeit a portion of the semester charges in accordance with the following schedule:

From the first full day of semester classes to and including the fourteenth (14th) calendar day following the start of classes	Forfeit twenty (20) percent of the student's total semester charges.
From the fifteenth (15th) calendar day following the start of classes to and including the twenty-first (21st) calendar day following the start of classes	Forfeit thirty (30) percent of the student's total semester charges.
From the twenty-second (22nd) calendar day to and including the twenty-eighth (28th) calendar day following the start of classes	Forfeit forty (40) percent of the student's total semester charges.
From the twenty-ninth (29th) calendar day to and including the thirty-fifth (35th) calendar day following the start of classes	Forfeit fifty (50) percent of the student's total semester charges.
After the thirty-sixth (36th) calendar day following the start of classes	No refund will be granted and all semester fees forfeited.

The start of days is defined as the first day of scheduled classes on the University calendar.

Refunds for students receiving financial assistance from scholarships and/or grants will be returned to the source of aid in an appropriate proportion, except in those cases in which a full refund to the source is required.

C. Refunds made during summer sessions will be governed by the following schedule. Students totally withdrawing from courses, resident halls and/or meal contracts upon receiving approval from the applicable office (Student Affairs or Graduate Office) will forfeit a portion of the total session charge in accordance with the following schedule:

From the first day of arena registration through the fourth (4th) calendar day following arena registration for Pre and Post Sessions. From the first day of arena registration through the eighth (8th) calendar day following arena registration for Main Session	Forfeit fifty (50) percent of the student's total session charges.
After the fourth (4th) calendar day in Pre and Post Sessions and the eighth (8th) calendar day of Main Session	No refunds will be granted and all semester fees forfeited.

D. No refunds will be granted unless formal withdrawal procedure has been initiated by the student or his family within 30 days of the date of withdrawal. Written and dated notice is required.

No refunds will be granted for students suspended or expelled by the University.

The Student Affairs Office (undergraduate) and the Graduate School Office (graduate) may request exceptions of these policies and grant pro-rated refunds when circumstances justify it. (EXAMPLE: death, medical reasons not permitting students return, military obligation.)

II. DISCRETE COURSE WITHDRAWAL

No refunds will be made for reduced class load after classes have started.

III. WITHDRAWAL FROM UNIVERSITY SERVICES

Students who withdraw from the University Students Services (Residence Halls, meal contracts, etc.), but do not totally withdraw from the University will not be granted a refund.

Graduate students and faculty doing research may apply for interlibrary loans to supplement the library's holdings.

Additional libraries are found at Armstrong and Punxsutawney Centers: some University departments maintain small reading rooms within each department itself. Ground has not been broken for the new Stapleton Library, but it should be completed by 1980.

HOUSING

GENERAL CONDITIONS

IT IS THE POLICY OF INDIANA UNIVERSITY OF PENNSYLVANIA TO OFFER FULL, EQUAL AND NON-DISCRIMINATORY ASSISTANCE TO ALL STUDENTS WITHOUT REGARD TO THEIR RACE, COLOR, RELIGION, NATIONALITY OR SEX, in both the placement in University housing and in the furnishing of facilities and services in connection with that housing.

Rooms will be available to fulltime, undergraduate students enrolled at Indiana University of Pennsylvania. Each year the University reviews its housing policies and revises them according to its needs for the coming year. The University Housing Office is responsible for all residence hall and room assignments, food service assignments, information on private housing facilities, collecting local address and telephone data, and scheduling of the Campus Van. Located in John Sutton Hall, ext. 2696.

ASSIGNMENT OF ROOMS

The University will not discriminate in room or hall assignment on the basis of race, color, religion, national origin, ancestry, sex, or physical handicap. Incoming freshmen who wish to reside in University residence halls must complete a residence hall application on their orientation day. Continuing students may apply for University housing during the pre-registration period for each semester in accordance with the procedure published and posted by the University Housing Office.

All residents will be assigned to their preferred hall or room and with their preferred roommate to the extent possible, based on the order of their application.

The University reserves the right to change room or hall assignments, to assign roommates or to consolidate vacancies by requiring residents to move from single occupancy of double rooms to double occupancy when necessary.

OCCUPANCY

New students required to attend orientation programs will be admitted to residence halls on the date published for their registration each semester.

Other students may enter the residence halls not earlier than 24 hours prior to their specific, announced registration time provided that that day is not a national holiday. Closing notices will be posted before each vacation period indicating dates residence halls will reopen.

Food service will be available to all students who have been issued a valid meal card during registration.

Housing and food charges must be paid to the Accounts Receivable Office, according to the established standards, before residents will be issued a room key and/or meal validation.

PREPAYMENT

The $50 prepayment for University Housing is credited toward total University fees.

ROOM CHANGES

Room changes are generally permitted throughout the academic year. However, there is a two week waiting period at the beginning of each semester before changes will be permitted. Students may change residence hall or room assignments only with prior written authority. Unauthorized room or residence hall changes or failure to move out of a room at the designated time will result in a $10 charge for improper checkout.

TERMINATION OF CONTRACT

If cancellation of residence hall contract is received by the University Housing Office by July 1, one-half of prepayment will be refunded. Students should refer to their contract for specific conditions of termination.

VACATION PERIODS

Students in University residence halls may *not* occupy their rooms during semester break, Thanksgiving vacation or Spring recess periods since all University housing units and dining facilities will be closed.

VACATING ROOMS

1. A student withdrawing from the University must obtain a withdrawal form from the Dean of Student Services office, 203 Pratt Hall. The student must vacate his or her room within 24 hours after the date of withdrawal by removing all possessions from the room, having the room checked, completing a telephone release form, turning in checkout form, and turning in room key, card key, and linen to the residence hall manager and ID card to the Manager's office at the Student Coop.

2. Students leaving for vacation or semester breaks must leave the residence halls within 24 hours of their last class or final exam. Students with evening classes or exams may stay until noon the following day.

3. Students who will not be attending the University or who will be moving to off-campus housing the succeeding semester must check out with their residence hall manager within 24 hours after their last final examination.

4. Graduating seniors may remain in their rooms until 5 p.m. on commencement day.

OFF-CAMPUS HOUSING

The off-campus students at IUP are comprised of three different groups: those living in private residence halls, formerly under University supervision, such as Leininger, Grant, Oakland, etc.; those students who are transported by bus or who drive (commuters) to campus from nearby areas such as Marion Center, Home, Blairsville, etc.; and those students who are living in town—renting rooms, houses, apartments (Carriage House, Regency Apartments, etc.) or living at home in Indiana. During the past several years, there has been a great increase in the number of off-campus students, so much so that there are more off-campus students than those living on campus. They presently number approximately 6500 students.

B. All financial arrangements are the responsibility of the student and the landlord.

C. Any change in place of living must be recorded in the office of the Director of Housing. This office must have on file the student's current address and telephone number.

D. The University neither condones nor will it tolerate open keg parties and other such group activities in residential areas because of (1) its tendency to create disturbances and violation of city ordinances, and (2) the harm it does to University-Community relations.

FOOD SERVICES

All students residing in University residence halls must take their meals in University dining halls. Off-campus students may arrange to take meals in the dining halls by making arrangements with the Housing Office. All such arrangements are on a one semester basis. There are three meal plans offered by the University:

Plan A-21 meals per week
Plan B-15 meals Monday through Friday
Plan C-15 meals over 7 days

(All plans are for 1 breakfast, 1 lunch, and 1 dinner per day). Guests may take meals in any of the dining rooms at the current transient rate.

Students and guests may purchase meals at the Student Union Coffee Shop, at the Home Economics Cafeteria in Ackerman Hall, at the Coffee Shop in Foster Hall, or at the other convenient restaurants around the campus. Contract students may take their meals in Foster or Folger Halls.

These regulations also apply to motorbikes and scooters. Students living in a University owned or University supervised residence hall are not permitted to keep cars. Special requests should be made to the Director of Housing. Final disposition will be at the discretion of the Parking Committee.

STUDENT LIFE

OFFICE OF DEAN – STUDENT LIFE

The office of the Dean of Student Life is staffed by seven professional, 12 civil service and 170 student employees whose main responsibility is the total operation of 13 residence halls housing 3600 students as well as the New Student Orientation Program, advising RHA, coordinating the University Judicial Code, providing legal aid services to students, and administering the refrigerator rental program. The Dean and each member of his staff are available to counsel with students concerning personal, social, or academic problems. The Dean, Dr. Ronald W. Thomas, is located in 208 Pratt Hall, extension 2691.

STUDENT LEGAL AID

The Dean of Student Life serves as the University's legal aid officer, and as such, advises and refers students having questions or problems of a legal nature. Specific functions of the office include conducting out-reach programs to make students more aware of their legal rights and responsibilities, to resolve disputes between landlords and students living off campus, and referring students to attorneys and other agencies when necessary. The Dean has established liaison with the Indiana County Public Defenders Office for criminal cases and with several community attorneys for civil matters. Dr. Ronald W. Thomas is located in 208 Pratt Hall, extension 2691. Students needing immediate assistance can contact Dr. Thomas at his home after 4:30 p.m. (349-2411).

RESIDENCE HALL PROGRAM

Indiana University of Pennsylvania is a residential campus with thirteen residence halls divided geographically into four quads. The North Quad houses approximately 650 students and is composed of Elkin, Gordon, and Whitmyre Halls. South Quad houses approximately 1,000 students and is composed of Mack, Stewart, Turnbull, Langham and Wahr Halls. Esat Quad houses approximately 750 students and is comprised of Esch and Wallace Halls. Named for three recent Pennsylvania governors, Governors Quad houses approximately 1,300 students and consists of Scranton, Lawrence and Shafer Halls.

The central purpose of the residence hall program at IUP is to foster individual growth and development. In order to fully realize this goal, a team of residence life staff members lives and works in each quad. This team consists of a Residence Coordinator who is a professional staff member with a degree in counseling or student affairs. S/he is responsible for selecting, training, and supervising the Hall Counselors in the quad; training and supervising the Residence Managers; working with the Quad Residence Hall Association; as well as overseeing the entire quad. Another member of the residence life team is the Residence Manager. S/he is responsible for all of the management functions of a residence hall or a small group of residence halls: student check in and check out, distribution of keys, maintenance of housing lists, distribution of mail, room inspections, damage reports, etc. In addition to full time personnel, the University student Hall Counselors are responsible for counseling the students in their section; planning educational, social, recreational, and community service programs; assuming their share of the administrative responsibilities of the building; and ensuring that reasonable order is maintained.

Statistically, college students spend about 85% of their time outside of the classroom. Residents spend a great deal of this time in residence halls; therefore, residence halls are seen as much more than a place to sleep. They are rapidly becoming out of classroom learning environments wherein educational, social, recreational, and community service programs are being planned and conducted with the express purpose of facilitating personal growth on the part of the individual residents.

Because residence hall living is seen as a positive educational experience, all freshmen are encouraged to live in a residence hall unless they are commuting from home. In an effort to make residence hall living more responsive to individual needs, the University offers three separate life styles:

1. **Single-Sex Housing:** Students of the same sex are housed in one building. At the beginning of the year, residents of each floor or wing determine by majority vote the hours during which members of the opposite sex may visit. At any time during the year, a resident may propose an alternate set of hours and a new vote will be taken. Members of the opposite sex may visit during the determined hours by invitation only and must be escorted by a resident. The residence hall is locked at midnight Sunday through Thursday and at 2 a.m. Friday and Saturday. Non-residents are not admitted after the closing hour.
2. **Coed Housing:** Members of the opposite sex are housed in the same building either by floors or wings. Mobility within the building is not restricted. The residence hall is locked at midnight Sunday through Thursday and at 2 a.m. Friday and Saturday. Non-residents are not admitted after the closing hour.

   Coed Housing Room-to-Room is an available option by request. This variation is identical to coed housing except that both men's and women's rooms are interspersed on the same floor or wing.
3. **Human Development Center:** The Human Development Center is an attempt to offer a small number of students an opportunity to enhance their educational experience by bringing together in the same setting the learning which takes place in the classroom with the individual's own personal growth. Academically oriented programs and classes for HDC residents taught in the center as well as personal growth opportunities are among the HDC's activities. Housing is coed room-to-room.

Students are encouraged to consider these options carefully and to select the one in which they would feel most comfortable. Every attempt will be made to house each individual in the life style which s/he prefers; however, because of the large number of students that the University houses, this cannot be guaranteed.

All University residence halls are modern buildings equipped with study lounges, recreational equipment, laundry facilities, locked mailboxes, etc. In addition, sewing machines, duplicating machines, desk calculators and other specialized equipment are located in each Quad for student use.

INSURANCE FOR PERSONAL BELONGINGS

Students are encouraged to carry insurance covering the loss or theft of money or property while residing in a residence hall. The Residence Hall Association offers students the option of purchasing this type of individual insurance policy. The insurance is very inexpensive and is recommended for purchase by all students. Complete details will be made available to students when they arrive on campus.

STUDENT ROOM REFRIGERATORS

Student room refrigerators are rented on a semester or a yearly basis out of the Dean of Student Life's office, 207 Pratt Hall. These refrigerators are UL approved, 2.1 cubic foot refrigerators requiring a maximum of .5 amps. Privately owned refrigerators which meet these specifications may be used in University residence halls and are accessed a fee of $1.00 per semester for electricity.

STUDENT ROOM TELEPHONES

Telephone service to the University was improved immeasurably with the addition of the Centrex system, which put a telephone with direct dialing in every room. It provided the campus with its own "357" exchange and reorganized intra-campus calling. With Centrex telephones, it is possible to dial all telephones on campus, dial direct station to station local and long distance calls, receive directly dialed incoming calls, and transfer incoming calls from one telephone on campus to another.

To dial an on-campus number, simply dial the four digit number. For local calls, dial 9 and then the seven digit number. For long distance calls, dial 9-1-area code-seven digit number, except for calls within the 412 area, in which case it is not necessary to include the area code in dialing. For other calls, dial 9-0 for the Indiana Operator. To transfer incoming calls, depress the switchhook once, give the operator the extension number the call is to be transferred to and hang up. In case of emergencies, dial 2140.

Billing is automatic, and bills are mailed to residence hall room telephones directly each month. Only long distance calls and telegram charges will appear on your bill.

These areas include Financial Aid, Career Services, Housing, Food Service, Health Services, Counseling Services and the Veteran's Office. Withdrawals, referrals, cancellations, and other areas of concern are initiated through this office. Students are encouraged to use this office if uncertain as to where to begin in seeking information on problems they may encounter. Dr. James W. Laughlin may be reached on extension 2221, or at his office in 203 Pratt Hall.

ALUMNI AFFAIRS

Situated in Clark Hall, the Office of Alumni Affairs welcomes and seeks to serve all IUP graduates as well as present students. The Office develops a variety of activities of interest to alumni both on campus, among them Homecoming and Senior/Alumni Weekends, and in areas where Indiana graduates reside. A program of travel tours, chiefly in the summer, is offered yearly.

The Office functions under the Director of Alumni Affairs, who seeks to promote an active program on the part of the Alumni Association, comprised of graduates serving in positions of voluntary leadership. Among the chief goals of the Association is the encouraging of as many personal contact services both within and in behalf of the University community as possible. Activities for alumni of academic departments, campus organizations, honorary and social fraternities and sororities in cooperation with their respective undergraduates are fostered.

Three editions of the **Report to the alumni** news magazine are published and mailed to all graduates through the year, and the Office of Alumni Affairs seeks to extend a number of other services as well. Personal communication with graduates is furthered in part through a network of alumni chapters organized in Western and Central Pennsylvania and in Washington, D.C., Northern Delaware, and New York City. Additional chapters, including one for young alumni in the Pittsburgh area, have recently been initiated.

Alumni conduct an annual giving program to finance a range of campus projects. Present emphasis is being given the Breezedale restoration and the acquiring of library resources, and graduates are further invited to give for such purposes as academic and sports scholarships, academic enrichment, and campus landscaping.

CAMPUS POLICE DEPARTMENT

Under the Director of Public Safety, the Campus Police, authorized with full Police powers, is concerned mainly with the protection of the University community. EMPLOYMENT provides an opportunity for the student to earn money to help finance his educational expenses. Students may be employed on campus for up to twenty hours per week. The University encourages students to participate in the on-campus student employment program, as studies have demonstrated that part-time campus employment provides a positive stimulus to students in their adjustment to campus life and maintenance of their academic averages. All campus employment is administered by the Financial Aid Office.

LOANS are a form of aid from which a student receives assistance while attending the University. These programs obligate the student to repay the loan funds after he terminates his education. Interest rates normally range to 7%.

GRANTS are funds which carry no obligation for repayment. These funds are awarded on the basis of financial need.

SCHOLARSHIPS are funds which carry no obligation for repayment. They are gifts awarded to the student on the basis of his ability.

INSURANCE

The Indiana University of Pennsylvania Board of Trustees instituted mandatory student accident and health insurance at the University effective September, 1963. It is realized, however, that some of the freshmen class students are covered by hospitalization policies of their parents. Where this is the case and additional coverage under the IUP student insurance plan is not desired, a waiver card can be submitted at the time of registration. However, the reasonable premium required for this service makes it highly desirable for every student to participate. Full information concerning this insurance coverage is mailed to enrolled students with their registration material.

The Oak maintains offices at 103 Pratt Hall. It is a pictorial and written review of the year's activities, planned entirely by students and distributed in the fall. Subscriptions for the book are available through most of the year semester. Students interested in joining the staff may do so by calling 2728 or appearing personally at the office. INTERCOLLEGIATE ATHLETICS

MEN'S SPORTS

IUP fields a total of 11 men's varsity sport teams and three club squads. Indiana holds membership in the NAIA (National Association of Intercollegiate Athletics), NCAA (National Collegiate Athletic Association), ECAC (Eastern College Athletic Conference) and the Pennsylvania Conference (PC).

BASEBALL

Baseball has been a successful sport at IUP in recent years, with Indiana teams reaching the playoffs six seasons running. In 1971, IUP won the district title, captured the Area 8 (Northeastern U.S.) championship and thereby earned a trip to the National NAIA Tournament in Phoenix, Arizona, where they placed third.

In 1974, Coach Arch Moore, a former New York Yankee outfielder, coached his team to the Pennsylvania Conference Western Division Title, leading to a runner-up position in the Pennsylvania Conference.

BASKETBALL

In the last eight years, IUP basketball teams have produced eight winning seasons and earned seven trips to the NAIA post-season playoffs. In coach Carl Davis's first season, he guided the 1970-71 team to the District 18 championship and berth in the National NAIA Tournament in Kansas City, Missouri. It was IUP's first appearance since 1958.

Davis and assistant coach Tom Beck's 1973-74 squad provided IUP fans with a seventh consecutive winning season, as it reached the quarter finals in the NAIA playoffs in Kansas City.

Randy Allen also emerged from that team to be named All-American guard. He was selected by the Phoenix Suns in the professional draft.

CROSS-COUNTRY

Cross-Country has enjoyed tremendous success in the last eight years as evidenced by the 1974 season. The harriers finished with a 9-1 dual meet record, won the California Invitational, the Indiana Invitational and the NAIA District 18 championship. In addition, they placed second in the Pennsylvania Conference race and third in the prestigious Malone Invitational and Penn-Ohio championships.

In his eight years of coaching, Dr. Lou Sutton has compiled a 74-15 (831) record at IUP. Home meets are run at Mack Community Park in Indiana.

FOOTBALL

Winning is a tradition at IUP, especially in football. IUP posted winning seasons in 13 out of the last 14 years, including a trip to the Boardwalk Bowl in 1968.

In each of the last four years, a member of the Indian football squad has received the prestigious honor of being selected to the College Division All-American football team. In both 1974 and 1975, quarterback Lynn Hieber not only had the distinction of being named Little All-American, but he was also the Player of the Year in Division II football in the Eastern United States.

In his six years of coaching at IUP, Bill Neal has compiled 38 wins against 17 losses, playing such teams as Akron, Edinboro, Youngstown, East Stroudsburg and Slippery Rock.

Home games are played at the 8,000-seat George P. Miller Stadium where generally more than 10,000 people attend the Annual Homecoming contest.

GOLF

Golf is another strong spring sport at IUP. In fact, Indiana is the only school east of the Mississippi River to ever win the National NAIA title, in 1968. IUP is annually invited to the NAIA national tournament, the NCAA College Division Championships and occasionally to the NCAA University Division Championships.

Coach Ed Sloniger has played a great part in the squad's recent success along with golfer Ron Milanovich, a former state scholastic champion and NCAA All-American.

RIFLE

One of the most successful sports at IUP is rifle. Coach Tom Campisano has led his marksmen to four Western Pennsylvania Intercollegiate Rifle League titles in the last six years. In the past three years, the rifle team has gone undefeated during the regular season and has compiled a 45-0 record.

SOCCER

Soccer has become a successful cog in the sports program at IUP. Coach Vince Celtnieks's squad finished 6-4-1 in 1973 and 5-4-4 in 1974, but the seasons were more successful than the records indicate. Indiana came within one game of capturing the Pennsylvania Conference Western Division title and defeated two powerful opponents in Lock Haven and Pitt in 1973.

IUP also hosts the largest indoor soccer tournament on the East Coast, the Indiana Invitational Indoor Soccer Tournament, every spring. The 48-team tourney includes such teams as West Virginia, Lock Haven, Penn State and Slippery Rock.

Home games are played at George P. Miller Stadium.

SWIMMING

The swimming program has undergone great improvements under coach Ralph Johnson. The 1975 squad finished 8-3, including a title in the prestigious Penn-Ohio meet.

Two Indians placed on the NCAA Division II All-American list as a result of the 1975 campaign. Emilio Abreu gained national recognition in the butterfly and medley events, while Doug Bennink was an All-American diver.

TENNIS

The tennis program has been under the supervision of Dr. Charles Godlasky for the past two years. Although graduation has taken its toll, coach Godlasky has the nucleus of veterans returning from the successful 1974 team.

TRACK

The track program at IUP took a step forward in 1973 when javelin thrower John Elliot won the national championship with his toss in the NAIA meet in Arkadelphia, Arkansas. Elliot, along with long distance runner Don Slusser, was a two-time All-American at IUP. Slusser ran in the famed Boston Marathon several times, never finishing worse than 51st.

IUP is currently led by All-American decathlon performer Jim Wooding. Coach Lou Sutton, who brought success to Indiana in cross-country, has turned the track program around at IUP, and the trackmen have never finished worse than third in the district since he took over.

WRESTLING

Bill Blacksmith's wrestling team has compiled a 23-8 record over the past two seasons, including two District 18 championships. The 1974-75 season was one of the best ever as junior Larry McCoy captured the NAIA national championship in the 167-pound category.

Matches take place in IUP's Memorial Field House.

WOMEN'S SPORTS

IUP has an extensive women's sports program. The program is designed for all women students, not just Physical Education majors and many coeds spend much of their leisure time at Waller Gym. Miss Podbielski is the Athletic Coordinator of Women's sports at IUP and she envisions more varsity sports and a league similar to the Pennsylvania Conference set up among the competing schools.

The new Women's Physical Education Center, located in the IUP Athletic Complex behind Miller Stadium, is now 60% completed. It will be known as the Zink Field House.

BASKETBALL

Coached by Lois Nesbitt, the basketball team finished the season with a 5-6 record. They hope to improve their record in the upcoming season and win a berth at the Women's Basketball Regional Championship Tournament as they did in 1971.

FENCING

The fencing team, coached by Nancy Barthelemy, had a 7-1 record before going to the N.I.W.F.A. tournament at Montclair State College. Results were not available at the time this publication went to press.

FIELD HOCKEY

The field hockey team, also coached by Lois Nesbitt, ended the '75 season with five wins and two losses. They also participated in the Mid-East Sectional Tournament.

GYMNASTICS

June Korab's gymnastic team completed the 1975 season with six wins and three losses and placed seventh in the Pennsylvania Conference.

TENNIS

The tennis team, coached by Mary Louise Eltz, finished the 1975 season with a perfect record; defeating teams from Carnegie Mellon, Pitt, Edinboro and others.

VOLLEYBALL

The volleyball team also completed a perfect season in 1975. Coached also by Nancy Barthelemy, the co-eds participated in both the California Sports Day and the E.A.I.A.W. Regionals.

INTRAMURAL ACTIVITIES

The aim of the Intramural Program is to provide a broad recreational program that will meet the demands, needs, and interests of every student at Indiana University of Pennsylvania. The Program is designed to develop skills and recreational activities which can be utilized throughout life. Physical activity is an essential aspect of a well-rounded university education.

We hope that you will enjoy friendly competition, teamwork, and practice good sportsmanship.

An invitation is extended to all students and faculty to take part in our varied program. The rewards and benefits of participation will help make your stay at the Indiana University of Pennsylvania a pleasant one.

Royden P. Grove
Intramural Director

COMPETING UNITS AND PARTICIPATION

1. The intramural competing units are made up of the following organizations: sororities, fraternities, clubs, church organizations, residence halls, and independent units.

A. A residence hall resident can play for his or her hall, or for a sorority, a fraternity, or club if he, or she, is a member. He or she may play for one team only in any sport. He or she may not play for an independent team.

B. A fraternity man living at a fraternity house may play for his fraternity only.

C. A fraternity man or sorority woman living in a private residence may play either for the fraternity or sorority or an independent team.

D. Pledges for a fraternity or sorority are eligible to compete for the fraternity or sorority if they have received a certified bid and their names are on the master roster.

E. A student living in a private residence or a commuter may play only on an independent team.

F. Faculty members may play only on a faculty team.

2. Each team competing for the All-Year Championship shall file a written copy of a master roster in the Intramural Office at the beginning of the first Intramural activity in the fall.

3. Any team wishing to begin competing for the All-Year Championship at the start of the spring semester shall file a written copy of a master in the Intramural Office at the beginning of the first Intramural activity in the Spring Semester.

4. New members may be added to the master roster until the deadline which will be Oct. 15, 1976 for the Fall semester and Feb. 25, 1977 for the Spring semester. No player can play for a team if his or her name does not appear on the master roster.

5. A new master roster may be submitted at the beginning of the second semester.

6. Master rosters of independent teams may not exceed 50 members per semester.

7. All master rosters must be signed in ink. No names may be crossed off the master roster.

ELIGIBILITY

1. All undergraduates or graduate students and faculty members are eligible to take part in intramural competition except:

A. A person who has received the varsity award or letter from any senior or junior college or university shall not be eligible to participate intramurally in that particular sport or its related counterpart.

B. If an individual has been issued equipment and has practiced as a member of a freshman or varsity squad, he or she is not eligible to participate intramurally in that particular sport or its related counterpart during the current academic year even though he / she has dropped from the team.

C. If an individual is retained on a varsity or freshman squad or has competed extramurally in a sport that follows a fixed schedule of games for Indiana University of Pennsylvania, he or she is ineligible to compete in the corresponding intramural activity during the academic year. The varsity coach of the sport in question shall be the final authority concerning varsity squad membership.

D. A student barred from varsity athletics because of professionalism shall be barred from those branches of intramural athletics in which he or she has broken amateur regulations.

E. A player may not play on more than one team in any given sport. After entering one contest with a given team, a player may not transfer to another team in that sport.

F. Any contestant using an assumed name shall be barred from all activities during the semester in which the offense occurred.

G. A player's name must appear on the roster for the sport he or she is participating in for a specific organization prior to the first game in that sport. If the same name appears on two rosters for the same sport then the team playing the first game in which the player participates will be his or her assigned team.

H. Any unit permitting an ineligible player to participate automatically forfeits the contest in which the ineligible player takes part. Intramural team managers are responsible for the establishment of the eligibility of players on their rosters. The Intramural Office does not assume the responsibility for checking the eligibility of the participants at the place of contests.

I. Students that withdraw from school during the semester are no longer eligible to compete in intramural activities.

2. Any undergraduate or graduate student that paid an activity fee for the semester in which the sport he or she is participating is eligible to compete in intramural activities.

3. A faculty member must play only on faculty teams.

4. Graduate assistants may play with student teams or as a member of a faculty team.

5. Students may not move from one master roster to another during a semester if either team is competing for all year points.

6. An organization which has more than one team participating in the same sport may move a member of the "B" team up to the "A" team. An "A" team member, however, may not move down to a "B" team. To be eligible for play-off competition, a player must participate in one league game of a particular sport when moving up from a "B" team to an "A" team.

7. In team sport activities, no more than 50% of the playing team may be enrolled in the professional course of study in Health and Physical Education.
8. In the event of any questions concerning any of the eligibility rules, such questions should be brought before the Intramural Director for interpretation.

University Governance

CONTENTS

I. ADMINISTRATIVE STRUCTURE

II. UNIVERSITY SENATE

III. STUDENT GOVERNMENT

IV. JUDICIAL CODE

ADMINISTRATIVE STRUCTURE

The administration of the University is vested in the President who works in cooperation with numerous other administrators in an effort to ensure the smooth operation of this institution.

The recent advent of faculty unionization has introduced a new factor into the administrative structure: collective bargaining. It affects all phases of the University administrative organizations. Two of its units—Association of Pennsylvania State College and Faculty Unit I and Association of Pennsylvania State College and University Faculty II—include the faculty and a large proportion of the administrative staff. The first negotiating unit represents all teaching faculty and department chairpersons. The second unit represents those members of the administration not identified as top management, and both of these units are affiliates of The Association of Pennsylvania State College and University Faculties. Guidelines established by these organizations influence many of the decisions of all other units in the total University administrative structure.

Matters of University policy are initiated by the appropriate committees of the University Senate. Committee recommendations are acted upon by the entire Senate in which students comprise over one-fourth of the membership. Senate actions are then submitted to the President of the University and the Board of Trustees for approval. Students now have voting representation on the Board of Trustees.

In addition to student representation in the Senate together with complete student control of the Student Government Association, students also have a direct line of communication to the President via the Student Group of the President's Cabinet. This group meets once every month in a no-holds-barred session to discuss matters of mutual concern to students and administrators. Student members of this Cabinet group represent the major offices and areas of concern to all students.

THE UNIVERSITY SENATE

The University Senate is the body at the University that revises old and new policies and regulations affecting the welfare and operations of the entire Academic community, special concerns being academic and student affairs.

Organized in 1966, the Senate originally was composed of all full-time faculty and administrators at IUP. In March 1971, it voted overwhelmingly to give students voting membership on that body. The first elections for student seats were held in September, 1971. Now students comprise 27 percent of the Senate, administrators make up 18 percent and the remaining 55 percent is faculty.

Legislation passed by the Senate is sent to the President and IUP Board of Trustees for action.

The student segment of 27 percent represents the highest percentage of student representation on such a body of all colleges and universities in Pennsylvania. In fact, the large percentage of students on the governing body places Indiana in the top five percent of all colleges and universities in the United States for student involvement on the governing body.

There are twelve committees:

- A Rules
- B_1 Academic Procedures
- B_2 Curriculum Committee
- C Faculty Tenure, Promotion and Academic Freedom
- D Graduate
- E Faculty Research, Library, and Educational Services
- F_1 Student Affairs
- F_2 Student Athletics
- G University Development and Finance
- H Faculty Affairs
- I Continuing and Non-resident Education
- J Consultative Committee

The entire Senate is headed by a Chairman, Vice-Chairman, and Secretary.

The Rules Committee, with its Nominating, Steering, and Amendments and Adjudication sub-committees, is responsible for operation of the Senate. "A" also runs elections for committee seats, prepares the official agenda, and settles jurisdictional disputes between other committees.

The four committees most directly affecting students are "B_1" Academic Procedures and "B_2," Curriculum Committee, "F_1," Student Affairs and "F_2," Student Athletics. "B_1," and "B_2," should both be considered most important. They handle matters such as determination of academic probation, general admissions policies, and anything relating to undergraduate curricula. "F_1" and "F_2" may receive more attention from the student body. They have a wide range of responsibilities from housing and health services to the athletic program and financial aid—and, of course, social regulations.

STUDENT GOVERNMENT

The members of the Student Government Association number 55, one for every 200 students. Congress' purposes vary and change as the needs and desires of the student body vary and change. The position of Student Government has changed in recent years, due to the inclusion of students in the University Senate, but it has remained the most important student voice on campus.

All Congressmen are elected at large. These elections are held twice a year, each involving approximately half the Congress. Their terms last one year. The President and Vice-President are elected in the December elections and serve for one year. The other officers are chosen from among the representatives at the first meeting of every semester. They include a recording secretary, corresponding secretary, treasurer, and parliamentarian.

Student Government has 10 standing committees and co-ordinates two other university committees. The standing committees are Academic Affairs, Off-Campus Housing, Legal Rights, Tri-Campus Affairs, Public Relations, Treasury, Elections, Rules, Minorities and CAS Liaison. The two University committees are Blood Drive and Freshman Orientation. These committees serve students in many ways such as coordinating and disseminating information; investigating off-campus housing complaints with the help of a lawyer retained by Congress; rectifying student grievances, researching and recommending changes in academic matters, conducting the Homecoming Queen elections, working to integrate and unify all three campuses, working to assist minorities; and protecting the rights of students. In addition, the SGA President acts as the official student spokesperson in important meetings with the President, APSCUF, and local officials.

SGA plays an active role in campus affairs and also makes recommendations to the Administration for the improvement of student welfare. At its weekly meetings it provides an opportunity for discussion of student problems, brings the student body, faculty, and administration closer together through a frank understanding of mutual problems, and promotes the implementation of policies that will lead to the improvement of University campus life. Any student in need of SGA's services should call 2544 or 2594 for information and help. The SGA office is 104 Pratt Hall.

The Centers have their own student governments. Kittanning has two delegates and Punxsutawney has one delegate who represent their center and vote at all meetings of Congress on the main campus.

STUDENT LAWYER INFORMATION

The Legal Rights Committee of the SGA recognizes that all members of the student body are entitled to due process. Ms. Cleo McCracken (202 Pratt Hall) is the Student Lawyer Liaison between the Legal Rights Committee, the student body, and the lawyer on retainer by the SGA. In order to seek legal aid through the SGA lawyer, students must contact the Student Lawyer Liaison Officer concerning the legal problem.

The lawyer on retainer serves the student body in the following manner: in an advisory capacity; in matters of tenant-landlord disputes; in matters of campus food contract disputes; and in the handling of civil cases. The Legal Rights Committee will review each civil case and determine which cases it will support up to $50.00.

With Congressional approval, the Legal Rights Committee will pay for services up to and including $50.00. Any costs above this will be paid by the individual(s) involved, unless in instances of landmark cases, Congress decides to support the case in its entirety.

COMMONWEALTH ASSOCIATION OF STUDENTS

IUP is a member of the Commonwealth Association of Students (CAS), the statewide student voice of the fourteen state-owned institutions. Headed by an Executive Director in Harrisburg, the Association is set up to serve the special interests of the state colleges and university through the collection of student opinions and their dissemination to the proper state or federal agencies, as well as to actively promote the passage or defeat of legislation deemed relevant to the students and public higher education in Pennsylvania. CAS also acts as a liaison between students and the state government, the faculty union or any organization or individual that affects the state colleges and university.

At IUP, the CAS local chapter operates independently of the Student Government Association. The local chapter coordinator, student government president, and minority representative are each accorded voting privileges at the statewide meetings held bi-monthly. Any full-time or part-time undergraduate or graduate at IUP is welcome and encouraged to join as well as actively participate in the Association's activities, either on the state or local level.

INDIANA UNIVERSITY OF PENNSYLVANIA
JUDICIAL CODE

PHILOSOPHY

The Indiana University of Pennsylvania Judiciary Code works within the framework of the English Common Law Tenant that an individual is innocent until proven otherwise. It further adheres to the principle that the University Judicial System should reflect the same basic constitutional procedures and safeguards, rights and privileges afforded American citizens under the fourteenth amendment. However, it is in the best interests of the individual and the university to speed up the judicial processes whenever possible and to evaluate disciplinary cases on an individual basis rather than determining cases on past precedence. Each case and each student is unique.

The intent of all actions taken through the university judicial structure is to create behavioral change in the student rather than to be simply punitive.

The University Judicial Board, working in conjunction with the University Hearing Officer, and the Quad Hearing Officers attempt to alleviate the causes underlying student misconduct by personal counseling and guidance. In this way it is hoped that behavioral change can be effected and that future offenses can be eliminated.

STRUCTURE

The judicial structure of Indiana University of Pennsylvania is arranged to give the student both on and off campus the fairest system of hearing and appeal possible under due process guidelines as established by the fourteenth amendment. The Indiana University of Pennsylvania judicial system has been simplified to adjudicate all university initiated disciplinary cases as quickly as possible while still affording the student all due process protections.

The judicial system consists of a University Judicial Board (UJB) which has full delegated authority from the President for adjudicating all student disciplinary cases as well as being the primary appeals board for the judicial system. The board consists of five faculty and/or administration members and five students in addition to the Vice President for Student Affairs who is the permanent Chairman of the UJB. All board members are randomly selected from a faculty and student roster at the beginning of a semester. From this random pool five student members and three alternates and five faculty-administrative members and three alternates are selected. Each member serves voluntarily for one semester; however, spring semester members serve through the following summer.

When violations of university rules as outlined in "The Eye", the official student handbook, originates in a university residence hall, a student's case is adjudicated by a Quadrangle Hearing Officer who is the Residence Coordinator of the particular quadrangle where the case originated. In those circumstances where a student appears before a Quad Hearing Officer, the student has the right to have his or her case adjudicated by the UJB or appealed to the UJB should the student not agree with the adjudication. The UJB has established standardized penalties within which the Quad Hearing Officer must work. Either the student or Hearing Officer may refer the case to the UJB or appeal the adjudication.

With cases involving off-campus students or incidents being referred from campus security, the Dean of Student Life serves as the University Hearing Officer with the following guidelines. He determines if sufficient evidence exists and/or that a case is severe enough to be referred to the UJB. He refers all cases to the UJB where he feels suspension or separation from the University is a possibility. He is granted leeway to discuss with students the nature of the complaint and adjudicate the case as he sees fit. He will not exceed the penalty guidelines as determined by the UJB. Students called in before the University Hearing Officer, may have their cases adjudicated by the UJB or can appeal the Hearing Officer's decision should they determine said decision to be unfair or inequitable. In all cases involving either the Quad Hearing Officer or the University Hearing Officer, students have three days from the time they are officially notified in writing of the University charges against them to respond. The University Hearing Officer as well as the Quad Hearing Officers are compelled as is the defendant to either refer the case to the UJB or appeal a decision within six school days.

Where acts have been committed on the Indiana University of Pennsylvania campus which may constitute a violation of any state, federal, county, or municipal statute, code, ordinance, rule or regulation, the nature of the acts and any relevant information related to the acts should be transmitted to the Vice President for Student Affairs or his designees as soon as possible. The Vice President for Student Affairs or his designees will make a determination as to whether it is appropriate to notify the civil authorities on behalf of the University.

Appeals from UJB decisions can be made directly to the President of the University.

JUDICIARY GUIDELINES

1. Accusation of a violation as identified in the Eye (Student Handbook) can originate from any of the following persons: Residence Hall Counselors, Residence Managers, Students, faculty, administrators, and Campus Police Officers. Accusers must report in writing the charge and the pertinent details of the case to the appropriate Hearing Officer within three days of the incident unless justifiable circumstances make such notification impossible or impracticable. The UJB will make the final determination as to whether a late notification was justified; if not, the case will be dropped.

2. The student accused of a violation shall be immediately informed in writing of the specific charge and given a minimum of three days notice before a Hearing Officer or the University Judicial Board.

3. The notification of charges against the defendant shall include but not be limited to the following information: The specific charge and the accuser, the time and place of the hearing, and a notification to the defendant of his right to select an advocate. It is the Hearing Officer's duty to inform the defendant of his opportunity to appeal.

4. No member of a Board may sit in judgment in his own case.

5. The student has the right to be secure from unreasonable searches and seizures under University procedure.

6. No student shall be compelled to be a witness against himself nor be deprived of liberty or property without due process.

7. In all proceedings, the accused has the right to a speedy and public hearing by an impartial judiciary body, to be confronted with any witnesses against him and to have compulsory process for obtaining witnesses in favor of him.

8. Evidence obtained outside University procedure shall be inadmissable.

9. The right of freedom from unreasonable coercion and excessive punishment shall not be denied.

10. The right of the student to be considered innocent until judged otherwise, to be judged as an individual not as a member of a group and to receive the rationale for the decision of the judiciary body shall not be denied.

11. A student charged with a violation of a University regulation has the privilege of pleading guilty and having his case adjudicated by a Hearing Officer within the framework of the prementioned guidelines.

12. Should a student choose not to appear before either a Hearing Officer or the University Judicial Board, his case will be adjudicated without prejudice.

13. All UJB hearings are private unless the defendant requests a public hearing, but *the UJB Chairman may regulate access of spectators to the hearing.*

14. A defendant may challenge any member of the jury sitting in judgement of his or her particular case. Upon hearing the details of the challenge, the jury will, by majority vote (challenged member not voting) either uphold the challenge and appoint an alternate juror or deny the challenge. Jury members may withdraw from sitting on a jury hearing any case in which the juror feels that he or she could not reach a fair and objective decision.

15. In all cases where final action on civil or criminal charges are pending the status of a University student will be determined thus: Subject to prompt review, the Chairman of the University Judicial Board with approval of the President, or the President himself, may summarily suspend a student from the University when in his best judgement such immediate action is necessary for protecting the safety and welfare of the University community or the suspended member himself. Within 48 hours of the issuance of suspension, the Chairman will convene the University Judicial Board which will review the circumstances. The board will then either uphold or reject the Chairman and/or the President's recommendation. If the suspension is not upheld, the student will be immediately reinstated and granted excused absences from all classes and responsibilities missed for the time lost during the suspension.

The burden of proof when summary suspensions are authorized lies with the University and not the defendant, and it is the University's obligation to readmit a summarily suspended student immediately upon the cessation of the clear and present danger circumstance. Should the clear and present danger circumstance not exist, the status of the student will neither be altered nor will his right to be on campus and attend classes be suspended until such time as his case is fully adjudicated to a conclusion in civil or criminal court. Upon such conclusion the University Judicial Board will review all civil and/or criminal court cases to determine if any additional University sanctions should be imposed upon those students convicted in civil and/or criminal court.

MEMBERSHIP AND DUTIES OF UNIVERSITY JUDICIAL BOARD

   d. Oversees the compliance of the penalty to the Board's decision.
   e. Maintains records of the Board's decisions and keeps factual records of all proceedings.
   f. Votes only in case of ties.
2. The Board Member

All members are selected from a random pool of names for a term of one semester. The only exception is the Vice President for Student Affairs who is the permanent Chairman of the University Judicial Board.

PROCEDURE

1. All decisions of the Board shall require a majority vote of all Board members present.
2. The Chairman, with compliance from the Board, shall have the power to declare any meeting or case closed to the public.
3. The defendant and/or claimant may bring any persons to the Board who are directly related to the case as determined by the Board. The Board shall have the power to request the presence of these persons.
4. A charge may be filed by any member or representative of the administration, the faculty, the student body, or the community.
5. All charges must be filed with the Chairman who schedules the hearing no sooner than three days nor longer than 15 school days from the date of notification of the charge. No case may be heard unless the charges have been properly filed.
6. The defendant may choose an advocate of his choice to consult with during this hearing.
7. In all circumstances a defendant, if he so desires, may plead guilty and have his case adjudicated by a hearing officer. All decisions made by Hearing Officers are appealable to the University Judicial Board.

DECISIONS AND PUNISHMENT

1. A positive vote of the majority of the members of the Board present shall be required for conviction. A quorum shall consist of five members of which two must be students.
2. A positive vote of the majority of the members of the Board present shall be required to determine punishment.
3. The Board in relation to hearing students conduct cases shall have the power to punish for contempt, with contempt being defined as:
   a. Disorderly conduct by spectators or participants in a hearing.
   b. Perjury by the witnesses.

   Punishments for contempt on the part of students shall be at the discretion of the Board.
4. Decisions of the UJB may include:
   a. An agreement for behavioral change.
   b. Failure on a student's part to honor a commitment to alter an inappropriate behavioral pattern will be cause for referral to the University Judicial Board as a second offense.
   c. Letter of Warning: A warning letter may be sent either by a Hearing Officer or the University Judicial Board to the student indicating that he has been found guilty of violating a University regulation and that failure to comply with University regulations in the future will result in an automatic referral to the University Judicial Board to be handled as a second offense.

d. Disciplinary probation for a specified period of time is an indication that a student's status is in a critical state during the probationary period. During the probationary period should the student be found guilty before the University Judicial Board for a like or equally serious offense, it will mean automatic suspension for at least one semester.

e. Suspension: The Board may at its discretion suspend a student for a period determined by the Board. Suspension implies that a student must remove himself from University premises and not attend classes, social activities, or occupy any building or University space during the period of the suspension.

f. Separation: In very serious cases or when a defendant appears before the Board after having already been suspended the University Judicial Board may recommend to the President that the student be separated from the institution. Separation differs from suspension in that suspension is for a specified period of time whereas separation is permanent.

g. All the above "powers" are obviously subject to approval or disapproval action by the President of the University and/or its Board of Trustees.

Two possible actions, listed above do not limit the Board to the use of these penalties exclusively. It may impose any reasonable penalty suitable for a given offense. Perjury and repeated offenses will result in more severe penalties.

VOTING

1. The Chairman shall vote only in case of a tie.

2. A quorum shall consist of five members, two of whom must be students.

JURISDICTION

1. The University Judicial Board shall have *original jurisdiction over* all cases which involve the student body as a collective whole.

2. The University Judicial Board shall have the power to hear cases heard before a Hearing Officer.

3. The University Judicial Board shall have the power to uphold or lessen the decisions of the Hearing Officers.

4. The University Judicial Board shall hear:

a. All cases referred to it by the University Hearing Officer.

b. All appeals.

5. The University Judicial Board will also act as a grievance board for all student complaints, except those dealing with instructional or marking practices, when in the judgement of the complainant the cause of such complaint has not been alleviated through such departmental and school mechanisms as are regularly and normally available. Complaints or grievances involving instructional or marking practices are handled by a standing committee of the University Senate (Committee B[1], The Academic Procedures Committee).

APPEALS

1. Upon receiving an adjudication from a Hearing Officer a student may appeal for any of the following reasons:

a. Denial of a fair and reasonable hearing.

b. New evidence (applies only when there is an acceptable reason to explain why the evidence could not be presented at the original hearing).

c. Excessively harsh or cruel punishment.

2. Procedure for appeal:

a. Student must present a written request for appeal to the Hearing Officer which rendered the decision within six school days after the decision.

b. The Hearing Officer receiving the appeal shall present it along with any other relevant information to the Chairman of the University Judicial Board.

c. The Hearing Officer may appear before the University Judicial Board in support of his or her decision.

I. STUDENT RIGHTS, FREEDOMS, AND RESPONSIBILITIES

The University commits itself to guaranteeing its students the rights discussed in the following paragraphs, insofar as, 1) they do not contradict either state or federal statutes, all of which are binding upon Indiana University of Pennsylvania as a state-owned and operated institution, and; 2) they are not incompatible with the instructor's freedom to teach.

A. FREEDOM OF ACCESS TO HIGHER EDUCATION

Indiana University of Pennsylvania welcomes students from all racial, religious, national, and socio-economic backgrounds. All facilities and services of the University are extended equally to all its enrolled students. In addition, the University will seek to guarantee all its students equal access to public facilities within the community. The University cannot condone racial or religious discrimination directed at its students.

B. FREEDOM OF EXPRESSION

The faculty has an obligation to encourage free inquiry and expression, and students should be permitted rational and orderly disagreement with data and views expressed in or out of the classroom. The student, however, has an equal obligation to be responsible for learning the content of any course of study for which he is enrolled. The University should provide reliable mechanisms to protect the student against prejudiced or capricious evaluation of his academic work, the latter functioning as the sole basis on which he is graded, unless the plan of his course of study explicitly states otherwise.

C. FREEDOM AGAINST IMPROPER DISCLOSURE

Ordinarily, a professor may judge a student's character or academic competence only when requested by or with the knowledge of the latter. Information about student views, beliefs, and associations which professors acquire in the course of their work as instructors, advisers, and counselors, should be considered confidential, and protecting these against improper disclosure is a professional obligation.

Student academic and disciplinary records will be kept separately, and the latter will be destroyed when the student has severed his connection with the University by graduation. Information from disciplinary records will be made available only to members of the University Judicial Board and the President of the University or his authorized agents. Disciplinary records and counseling files will not be made available to off-campus individuals or agencies without the express consent of the student involved. Academic records may be made available to prospective employers through the Career Services Office on the assumption that the student who uses such services has given de facto permission for such use.

The University shall keep no records which reflect the political activities or the beliefs of its students.

D. FREEDOM OF ASSOCIATION

1. Since students come to the University with previous attachments and loyalties which they may wish to perpetuate, and ordinarily develop new interests during the course of their tenure as students, they should be free to organize and join associations to promote their common interests.

2. The membership, policies, and actions of a student organization usually will be determined by the vote of only those persons who hold bona fide membership in the University community.

3. Affiliation with an extramural organization shall not of itself disqualify a student organization from institutional recognition.

4. Each campus organization shall be free to nominate such advisers as it may choose for approval by Committee F (Student Affairs and Athletics) of the University Senate, and University recognition will not be withheld or withdrawn solely because of the inability of a student organization to secure an adviser. In such cases, Committee F, with the approval of the University president, will appoint an adviser to the organization. Campus advisers may advise organizations in the exercise of responsibility, but they should not have the authority to control the policy of such organizations.

The organization should notify its advisers of all its meetings, both general and executive, and the advisers have the right to attend any and all of such meetings. When an organization takes an action not in agreement with its general purpose or procedures, or when it plans a program of activity not approved by its advisers, the latter shall report such action to the Chairman of Committee F of the University Senate. The organization is responsible to the University and specifically to Committee F of the University Senate, for any action taken without the approval of its advisers.

5. Student organizations seeking institutional recognition will be required to submit to the Student Government Association, a statement of purpose, criteria for membership, rules of procedures, and a list of officers.

Either Student Government Association or Committee F (Student Affairs and Athletics) of the Senate may refuse recognition if either believes recognition is not in the best interests of the University. Recommendations from Student Government and Committee F (Student Affairs and Athletics) will be transmitted to the President of the University for final approval of action taken. The list of officers of all organizations must be updated yearly. Organizations will not be required to submit a membership list as a condition of institutional recognition.

6. Campus organizations, including those affiliated with an extramural organization, must be open to all students without respect to race, creed, or national origin.

7. Recognition as an approved campus organization grants the following privileges:

a. Such organizations may in their names reserve campus facilities and use campus services as these are available.

b. Approved organizations may purchase space in the University yearbook, The Oak.

c. Approved organizations will be listed by name in University publications and their activities may be listed on University activity calendars.

d. Approved organizations may submit requests for funds to the finance sub-committee of the SGA.

8. The University reserves the right to remove from its list of approved organizations those organizations which:

a. By their actions demonstrate that they no longer are contributing to the general welfare of the University community.

b. Become inactive or fail to submit an updated list of officers upon request of the designated office of Student Affairs.

c. Taken an action not in agreement with its general purpose or procedures as approved by Committee F of the University Senate.

E. FREEDOM OF INQUIRY AND EXPRESSION

Students and student organizations should be free to examine and to discuss all questions of interest to them, and to express opinions publicly and privately. They should always be free to support causes by orderly means which do not disrupt the regular and essential operation of the University. At the same time, it should be made clear to the academic and the larger community that in their public expressions or demonstrations, students or student organizations speak only for themselves.

Students should be allowed to invite and to hear any person of their choosing. These routine procedures required by the University, before a guest speaker is invited to appear on campus, are designed only to insure that there is orderly scheduling of facilities and adequate preparation for the event, and that the occasion is conducted in a manner appropriate to an academic community. It should be made clear to the academic and larger community that sponsorship of guest speakers does not necessarily imply approval or endorsement of the views expressed, either by the sponsoring group or the institution. The responsibility for the content and proper conduct of such meetings lies with the respective organization and its advisers.

F. RIGHT OF PARTICIPATION IN INSTITUTIONAL GOVERNMENT

As constituents of the academic community, students are free, individually and collectively, to express their views on issues of institutional policy and on matters of general interest to the student body through channels open for such participation.

G. FREEDOM OF STUDENT PUBLICATIONS

1. The student press should be free of censorship and advance approval of copy, and its editors and staff members should be free to develop their own editorial policies and news coverage.

2. Editors and managers of student publications should be protected from arbitrary suspension and removal because of student, faculty, administrative, or public disapproval of editorial policy or content. Only for proper and stated causes should editors and managers be subject to removal by orderly and prescribed procedures. Committee F (Student Affairs and Athletics), which bears the final responsibility for the appointments of editors and managers, upon the recommendation of the Student Government Association, should be the agency responsible for their removal in the event such circumstances arise.

3. The faculty or advisers have the obligation to advise, suggest, guide, and counsel. Conflicts arising between advisers and student editors over matters of good taste may be reviewed by the Committee on Student Affairs and Athletics, if either the student editor or the adviser wishes the help of this committee. Decisions as to what is to be published shall be made by the student editor of each publication.

4. Student editors must realize that the freedom of editorial choice implies full responsibility for the content and authenticity of the contents of student publications.

5. The faculty advisers and the student editors are jointly responsible for seeing to it that publication costs remain within budgeted allocations. Thus, the financial responsibility of student publications is shared by student staffs and faculty advisers.

6. Poor taste in editorial selection is particularly difficult to handle because taste is a highly individual opinion. What may seem in good taste to a student editor may, in fact, offend many other students or faculty. Student editors need to be sensitive to this problem and should seek counsel when needed for their own guidance and direction. One guiding principle should not be minimized —*student publications must be accountable to their readers*. All University student publications should explicitly state on the editorial page that the opinions there expressed are not necessarily those of the college, university, or student body.

7. Ordinarily, recommendations for key staff positions of the various student publications are made by the staffs of such publications in consultation with their respective advisers to the Student Government and to Committee F (Student Affairs and Athletics) of the University Senate for its approval.

H. OFF-CAMPUS STUDENT FREEDOM

1. Exercise of Rights of Citizenship: Indiana University of Pennsylvania students are both citizens and members of the academic community. As citizens, students should enjoy the same freedom of speech, peaceful assembly members of the academic community, they are subject to the obligations which accrue to them by virtue of this membership. Faculty members and administrative officials should insure that institutional powers are not employed to inhibit such intellectual and personal development of students as is often promoted by their exercise of the rights of citizenship, both on and off campus.

2. Institutional Authority and Civil Penalties: Activities of students may, upon occasion, result in violation of law. In such cases, institutional officials may attempt to apprise students of sources of legal counsel and may offer other assistance. Students who violate the law may incur penalties prescribed by civil authorities, but institutional authority will not be used merely to duplicate the function of general laws. Only where the University's interests, as an academic community, are distinct and clearly involved will the special authority of the institution be asserted: such authority may be instituted regardless of the civil disposition of the case. The student who incidentally violates institutional regulations in the course of his off-campus activity will be subjected to no greater penalty than would normally be imposed. Institutional action will be independent of community pressure.

II. RALLIES, PICKETING, AND OTHER DEMONSTRATIONS

A. Picketing, rallies, and other demonstrations are in violation of University regulations when individuals:

1. gather in such a fashion as to hinder entrance to, exit from or normal use of any University facility, and block or obstruct corridors, stairways, doorways, and building entrances in violation of government or University fire regulations.

2. hinder, by noise or obstruction, members of the University community from carrying on their normal activities, or occupy offices, classrooms, study rooms, libraries, etc., without the express consent of either the occupant or the official in charge of assigning or scheduling such areas, and in event such permission is granted, may enter only in the designated number,

3. employ force or violence against persons or property,

4. congregate or assemble within University buildings in such a fashion as to disrupt the University's normal functions and,

5. refuse to leave a University building or facility at the normal closing time unless other arrangements have been approved in advance.

B. Any student enrolled at the University who violates the above rules will be subject to University disciplinary action.

C. Any student or faculty member who participates in, either directly or by incitation, (1) violence, (2) destruction of property, (3) disruption of normal campus activities including especially the academic program, or (4) intimidation of or bodily injury to Trustees, faculty, administration and students will be subject to dismissal.

In view of the increasing number and wanton destructiveness of student disorders on campus, students participating in such activities may face civil court action in lieu of or in addition to University disciplinary action.

III. ID CARDS

A. The I.D. Card serves as identification while at Indiana University of Pennsylvania and should be shown on demand to any regular representative of the University or the Student Cooperative Association. It is used for checking books out of the University Library; for cashing checks at the Student Union Bank; for using facilities or checking out recreational equipment at the Union or the Field House; for admission at all Association events; and payment of fees at the Business Office.

B. The Bookstore requires the presentation of your I.D. Card when paying for purchases by check, when selling books back to the store and when returning merchandise for refund or exchange.

C. You should be careful of the I.D. Card and report its loss at once to the Student Union Service Desk. Alteration or misuse of the card, or loaning it to someone else for any purpose, will subject both the user and the lender to fines up to $25.00 and other disciplinary action.

D. Students who withdraw from the University during any term will be required to turn in their I.D. Card to the Student Cooperative Association office.

E. The I.D. Card must be revalidated for each semester. If a change in status requires a change in the I.D. Card, it must be turned in and replaced for a fee of $1.00. Damaged cards may be turned in and replaced for a fee of $1.00. New I.D. Cards are issued each year beginning with the fall term. Lost cards will be replaced for a fee of $5.00.

IV. ILLEGAL DRUGS AND ALCOHOLIC BEVERAGES

The Indiana University of Pennsylvania cannot and does not condone the illegal use, possession, manufacture, or sale of drugs or alcoholic beverages by students and expects Indiana students to have the intelligence and sense of responsibility to refrain from actions which may be damaging to themselves, or to others, or to the University, or which are contrary to the law whether or not the student agrees with the law.

There is no doubt that the use of a drug, such as heroin has a disastrous impact on the user. There is also clear evidence that the effects of LSD cannot be adequately predicted, even under carefully controlled conditions. Such reactions can take place when the drug is used only once, and they can persist and reappear long after such use. The use of marijuana is a more difficult problem. Technically, it is non-addictive, but certainly no one can seriously claim that its use is desirable. There is substantial evidence that marijuana can, in some persons, produce all the untoward effects attributed to more potent hallucinogens. These actions include aggressive behavior and psychosis.

There are at least two reasons why the University is justified in refusing to condone the use, possession, or sale of all non-legal drugs. First, it violates the laws of the Commonwealth of Pennsylvania, and second, the use of illegal drugs is certainly not desirable behavior. The suppliers of these drugs are certainly not interested in the welfare of students, but only in profit at any price.

The University stands ready at any time to help students with drug problems. The health center and psychological clinic are available to give aid in solving these problems. Contacts with these agencies are privileged, subject to the same standards of privacy established in the medical professions.

The following policies will be enforced by the University:

A. The use or possession of illegal drugs on the Indiana campus is deemed not to be in the best interests of the University community. Any student found guilty of use or possession will be subject to disciplinary action.

B. Students found guilty of the sale of illegal drugs will be immediately suspended or dismissed from the University and the evidence turned over to Federal and State authorities.

C. The use of alcoholic beverages must conform with existing State laws.

V. REGULATIONS ON TELEPHONE AND MAIL SERVICE

A. Students found guilty of the following infractions will be subject to disciplinary action:

False emergency calls on party lines, obscene or indecent language and anonymous calls.

Federal Law and the Penal Code of Pennsylvania provide:

It is unlawful for anyone to use the telephone in making an intra-state, interstate, or foreign communication as a means of conveying obscene or indecent language or to telephone anonymously another person repeatedly for the purpose of annoying, molesting, or harassing such person or his family. Such offense is punishable by fine or imprisonment or both. In addition, the Penal Code of Pennsylvania provides:

Any person who willfully refuses to relinquish immediately a party line when informed that it is needed for an emergency call to a fire department, a police department, or for medical aid or ambulance service, is guilty of an offense and subject to fine or imprisonment or both. The statute defines an "emergency" as a situation in which property or human life are in jeopardy and the prompt summoning of aid is essential. It is also made an offense subject to the same penalties to obtain the use of a party line by falsely stating that it is needed for such an emergency call.

Anyone with intent to defraud, who gives information to the operator or agent of any telephone company, so that the charge therefore is made to the account of another without his authorization, shall be liable to $50.00 fine or 30 days imprisonment or both.

B. Students are warned that it is an illegal act to use fictitious names in order to receive articles through the United States mails.

VI. AUTOMOBILE AND PARKING REGULATIONS

Thus, since a majority of students either prefer or must study during the evening hours, particularly after 7 p.m., those who are not so engaged at that time should be as quiet as possible. Upon receipt of permission from the Vice-President for Student Affairs the individual should reserve a lounge by contacting the Residence Coordinator who is in charge of the desired area. Once the lounge has been reserved the individual should then notify the Residence Manager for the building. Individuals are not prohibited from conducting their own private business unless they become a public nuisance in the course of such activities.

4. Organizations that have been granted permission to sponsor a sale by an outside business on campus, must be able to file, upon request with Student Government Association, Committee F (Student Affairs and Athletics) of the University Senate and, where appropriate, The Residence Hall Association, accurate and specific financial statements detailing income and expenditures relating to said sale. 1. Review of students' records by individual students and alumni applies retroactively to the date of passage (June 21, 1957) of the Right-to-Know Law. In these guidelines the word "students" shall be defined to mean all individuals who have matriculated at IUP since the passage of the Right-to-Know Law.

2. Students will, upon request, be given access to ALL their educational records. Educational records mean those records, files, documents, and other materials which contain information directly related to a student; and are maintained by an educational agency or institution, or by a person acting for such agency or institution.

The term does not include records of instuctional, supervisory, and administrative personnel and educational personnel ancillary thereto which are in the sole possession of the maker thereof and which are not accessible or revealed to any other person except a substitute. 3. Students who wish to see their records must make an appointment in advance with the proper official. The official must honor the request within five working days.

Original Guidelines Approved by the University Senate on September 23, 1975.

SUMMARY OF INDIANA BOROUGH ORDINANCES AND STATE LAWS

GENERAL STATEMENT

Students are expected, as citizens, to abide by the laws and regulations of the Borough of Indiana and the Commonwealth of Pennsylvania in addition to the rules of the University. It is hoped that the following information concerning certain important Borough ordinances and State Laws dealing with personal conduct will make students aware of these relevant regulations.

Since 1972 the Pennsylvania Legislature has enacted a variety of laws lowering the legal age of majority from 21 to 18. These changes are of great importance to IUP students since many of them are in the 18 through 20 age group.

The definition of a minor in the Pennsylvania Rules of Court has also been changed to read "an individual under the age of eighteen years." With the exception of the drinking age, an 18 year old in Pennsylvania is a legal adult.

LOCAL TAXES

An area of decided interest to IUP students is local taxation. Six of the new acts amend the laws in this area so that those 18 and older will probably be added to the local tax assessment rolls.

1. WAGE TAX

A tax of 1% of gross income is assessed against all persons working in Indiana Borough and White Township. This tax is normally withheld by the employer.

2. OCCUPATIONAL PRIVILEGE TAX

Indiana Borough assesses all persons earning income in Indiana Borough with an Occupational Privilege Tax of $10 per year.

3. OCCUPATION TAX

Local School Districts in Indiana County tax occupation by classifications (i.e., Professionals, clerks, laborer, etc.). The occupational rating is then multiplied by the applicable millage to determine the amount of tax due. Indiana School District millage is 383. Presently students are rated at zero.

Taxes on ownership of real estate are imposed annually by local government units, as are taxes on ownership of certain personal property such as stocks and bonds.

Application may be made to the local taxing entity for exoneration from these local taxes on the basis of non-residence, advanced age, and poverty.

LOCAL ORDINANCES

DISORDERLY CONDUCT

Several ordinances specify actions covered by the general charge of disorderly conduct: loud, boisterous, or unseemly noises, use of indecent language, damaging public or private property and prowling.

On conviction before a magistrate, fines may range between $2 and $100 plus costs, depending on the offense. Serious cases of disorderly conduct can be prosecuted as misdemeanors.

Indiana Borough has an anti-noise ordinance, by which it is a violation to be the cause of any noise after 11 p.m. which can be heard from 50 feet or more.

LITTERING

Littering in the Borough is subject to a fine of $100 plus costs.

It is unlawful to start a fire of any description out of doors.

EXTRACTS FROM THE STATE CRIMES CODE

FORGERY

Anyone who fraudulently signs another person's name to a document, such as a check, is guilty of forgery.

Forgery is a felony and is punishable by a fine between $10,000 and $25,000 or imprisonment not exceeding ten years, or both.

FIREWORKS

It is illegal to possess or use fireworks. In the Borough of Indiana, prosecution is usually under disorderly conduct.

LIQUOR

The age of majority has not been changed regarding liquor in Pennsylvania; therefore, the following laws are still in effect.

A person is guilty of a misdemeanor of the third degree if he, being under the age of 21 years knowingly and falsely represents himself to be 21 years of age to any licensed dealer or other person, for the purpose of procuring or having furnished to him, any intoxicating liquors. Maximum penalties: $2,500 fine and/or 1 year in jail.

A person is guilty of a summary offense if he, being less than 21 years of age, attempts to purchase, purchases, consumes, possesses or transports any alcohol, liquor or malt or brewed beverages. Any fine under this section shall be decreed to be paid to the local government in which the offense was committed, for the use of such local government. Maximum penalties: $300 fine and/or 90 days in jail.

A person is guilty of a misdemeanor of the third degree if he knowingly, willfully, and falsely represents to any licensed dealer, or other person any minor to be of full age, for the purpose of inducing any such licensed dealer or other person, to sell or furnish any intoxicating liquors to the minor. Maximum penalties: $2,500 fine and/or 1 year in jail.

A person is guilty of a misdemeanor of the third degree if he hires or requests or induces any minor to purchase, or offer to purchase, spirituous, vinous or brewed and malt liquors from a duly licensed dealer for any purpose. Maximum penalties: $2,500 fine and/or 1 year in jail.

The State Liquor Control Board operates under State Laws. Under these laws, it is a misdemeanor to unlawfully transfer a registration card for the purpose of falsifying age or to falsify age to secure malt or alcoholic beverages. Also, it is a misdemeanor for any person to sell, furnish, or give to any minor under twenty-one years of age any malt or alcoholic liquor. Penalty: on conviction, $100 to $300 fine or three months in jail.

DRUGS AND NARCOTICS

In June 1972, Pennsylvania adopted the Uniform Controlled Substance, Drug, Device and Cosmetic Act. This act liberalized the Pennsylvania law in the field of drugs and narcotics and in many respects reduced the penalties for violations of the law in this field. The new law has reduced most drug violations to the class of misdemeanor. One of the major exceptions is the distributing of drugs by a person over twenty-one (21) years of age to a person under eighteen (18) years of age, who is at least four years his junior. This violation is the most heavily punishable under the Act.

This Act provides that the possession of a small amount of marijuana only for personal use; or possession of a small amount with intent to distribute but not sell; or the distribution of a small amount but not for sale, carries a maximum sentence of thirty (30) days and a maximum fine of $500. A small amount is defined as thirty (30) grams of marijuana or less; or eight (8) grams of hashish.

Further, the Act provides that first offenders may receive probation without verdict and if the probation conditions are satisfactorily carried out the proceedings will be dismissed. Also, if this procedure is used the records of arrest and prosecution will be erased from the record.

RETAIL THEFT (SHOPLIFTING)

Any person committing the first offense of retail theft when the value of the merchandise is less than $100 is guilty of a summary offense. Maximum penalties: $300 fine and/or 90 days in jail.

Upon conviction of a second offense when the value of the merchandise is less than $100, the person shall be guilty of a misdemeanor of the second degree. Maximum penalties: $5,000 and/or 2 years in jail.

Upon commission of a third or any subsequent offense, regardless of the value of the merchandise, the person shall be guilty of a misdemeanor of the first degree. Maximum penalties: $10,000 and/or 5 years in jail.

When the value of the merchandise shall be $100 or more, any person who shall commit the offense of retail theft whether same shall be a first or subsequent offense, shall be guilty of a misdemeanor of the first degree. Maximum penalties: $10,000 and/or 5 years in jail.

TYPES OF PROSECUTION

Violations of laws and ordinances are prosecuted under three classifications:

SUMMARY OFFENSE

Nearly all Borough ordinances come under the Summary Offense classification. Many can be cleared within 48 hours by paying a fine and costs at the Municipal Building. Most moving vehicle violations and others not cleared in the 48-hour period are processed by a magistrate. State law requires him to add costs to the penalty and determines the size of the cost he may add.

Examples of summary offenses are most types of disorderly conduct, violations of the Motor Vehicle Code (such as speeding, failure to stop at a stop sign, etc.) and shoplifting (if it is the individual's first offense and if the value of the stolen goods is under $100).

MISDEMEANOR

The State Crimes Code provides for three degrees of misdemeanors. The degree determines the maximum sentence and fine which may be imposed upon conviction and, therefore, the seriousness of the crime. A defendent charged with a misdemeanor is afforded the same procedural safeguards as a defendant charged with a felony. The case will be heard by a magistrate at a preliminary hearing. If a prima facie case is shown by the Commonwealth then it will be sent to the Grand Jury. If the Grand Jury approves it for trial it will be then heard by a Judge either with or without a jury at the option of the defendant.

EXAMPLES: Driving under the influence of alcohol, driving during suspension of operator's license, furnishing liquor to a minor.

FELONY

Cases involving crimes of the most serious nature are denoted as felonies. There are three grades of felonies in Pennsylvania. The degree determines the maximum sentence and fine which may be imposed upon conviction. A defendant charged with a felony will have his/her case heard by a magistrate at a preliminary hearing. If a prima facie case is shown by the Commonwealth then the case is sent to the Grand Jury. If the Grand Jury approves the case for trial it will then be heard by a Judge either with or without a jury at the option of the defendant.

EXAMPLES: Murder, rape, arson, burglary, theft and forgery.

BAIL BOND PROGRAM

In order to help arrested IUP students post bond without delay, the Student Government Association (SGA) with approval from the University Senate and the Board of Trustees, has deposited $5,000 in a Bail Bond Account.

Indiana, Armstrong, and Jefferson County judges have instructed their respective magistrates to contact the following persons: Dr. Ronald W. Thomas (Dean of Student Life and Legal Aid Officer), Mr. Donald S. McPherson (Director of Residence Life), or Dr. S. Trevor Hadley (Vice President for Student Affairs) in that order whenever an IUP student is arraigned before them. Upon determining that the student is in good standing, the Bond Fund Administrator will authorize release of the student. Within 24 hours, the Administrator will deposit with the Magistrate a sum of money equal to 10% of the total bond. This 10% bond will be held by the Magistrate until the Preliminary Hearing (3 to 10 days later) at which time it will be returned to the University. If the student is bound over for court, he/she will have to post full bond at that time or be incarcerated.

Most Indiana, Punxsutawney, and Kittanning attorneys will accept IUP students as clients. If a student thinks he/she cannot afford an attorney (and most cannot), Public Defender assistance is available for all misdemeanors and felonies.

ALMA MATER

By Hamlin Cogswell

To our noble Alma Mater's name
We, her children, sing a joyful lay,
And to her a new allegiance pledge,
That lives beyond a day.

A prayer for her who sheltered us,
A hope no child her name will stain,
A cheer thrice given with a hearty voice
And now a sweet refrain.

Of loyalty are symbols twain,
Her colors, crimson and the gray,
"Dear Indiana Mother Fair,"
The burden of our lay.

(*Refrain*)

Sing, O Sing, Our Alma Mater's praise,
Hail, O Hail; her colors' gleaming hue!
Give to her our homage and our love
And to her name be true.
